THE ATLANTA CONSTITUTION.

VOL. XXXIX—No. 55 ATLANTA, GA., FRIDAY MORNING, AUGUST 10, 1906.—FOURTEEN PAGES PRICE FIVE CENTS.

HERE IS HYPOCRISY FOR YOU!

ATLANTA JOURNAL CONDEMNS WHAT ATLANTA JOURNAL ITSELF DOES

MACON, GA., August 9, 1906.—(Special.)—A well known gentleman of Macon was at the depot this afternoon, upon the arrival of the afternoon train from Atlanta, bringing The Atlanta Journal, on the first page of which was an elaborate article declaring that Clark Howell was sending out campaign literature on an express frank—the same matter to which The Journal has made frequent reference in the past few days.

On the very same train that brought The Journal it was observed that a vast pile of Journals were brought to Macon for disribution here, and for other connecting points, from Macon, **ON A FREE FRANK OF THE SOUTHERN EXPRESS COMPANY.**

In order to satisfy himself about the matter, scarcely believing that it was possible for a newspaper to conduct such a flagrantly hypocritical campaign, the gentleman made an investigation and ascertained that for several years the express company has been franking complimentary copies of The Journal sent out of that office by express.

And yet in the desperate effort to make it appear that Mr. Howell was doing something that The Journal would not do, that organ of Hoke Smith has been daily seeking to make it appear that favors were being extended to Mr. Howell that were not being extended by the Southern Express Company to The Journal and its editor, and also to every other daily newspaper in the state

The Journal sends really more newspapers—which of late are nothing but campaign circulars—by express than does The Constitution, which for the most part uses the United States mail. Every train that leaves Atlanta in the afternoon carries The Journal out with it **BY EXPRESS ON A COMPLIMENTARY FRANK** just as The Constitution. And yet this infamous old journalistic hypocrite is endeavoring to make it appear that it stands in a class all by itself.

The truth of the matter is the express company advertises for all carrying done by it in every daily newspaper in Georgia, and the franking done for them now, as heretofore, is in exchange for advertising. Exactly the same rule applies to The Constitution as applies to The Evening Journal and to the editor of both papers, and it is **EXACTLY THE SAME RULE THAT APPLIED TO MR. HOKE SMITH THROUGHOUT HIS CONNECTION WITH THE ATLANTA JOURNAL,** during which time he made free and full use of it, just as is now being done by other newspapers in Georgia without in any wise involving the Southern Express Company, which, as is shown in the Atlanta case, has exactly the same business arrangement with The Journal that it has with The Constitution.

COINS FELL LIKE MANNA BLOCKING THE VIADUCT WITH SCRAMBLING BOYS

Police Squad Was Called Out to Clear Streets of Youngsters Grabbing Coins Tossed From Windows.

COIN tossing from windows in the Fourth National Bank building yesterday afternoon about 5:30 o'clock yesterday clogged that thoroughfare on the Peachtree incline of the viaduct for three-quarters of an hour, the sidewalks being packed with adults watching the rolling, tossing, gymnastic work of the kids, white and black, mingling in the rolling and tumbling for the pieces of coin thrown from a window above the asphalted street.

Street cars, carriages and wagons were given no attention by the lads as they scrambled for the silver dropped from some window above. Immediately in front of a moving car a group of boys would throw themselves upon the street, fighting and battling for the copper or the nickel which attracted their attenion. Motormen were compelled to stop to avoid an injury, possibly death. Buggies and carriages were alike to the lads, and more than one wheel passed over a limb of some venturesome youngster who in his greed for a piece of coin gave no rezard to the danger he was courting.

From what floor the first piece of coin came or how the "coming of that coin" started, no one appears to know. But for a half hour pennies, nickels, dimes, two bits, halves and dollars rained upon the street, a two-dollar-and-a-half gold piece being found two times in the money rainfall.

When the coin dropping started there were but few people about the Peachtree, Decatur and Marietta street gathering point. It is at that point newsboys gather just about that time every evening. According to a well-known Atlantan who frequents that corner, a head protruded from a window on the fifth floor of the Fourth National Bank building about 5:30. A shrill whistle attracted the attention of a number of street occupants, a number of newsboys looking up, each raising a paper high above his head, as though offering a sale. A second whistle came, and with it a wave of the hand. Almost instantly a package was seen sailing from the window, but before it hit the ground that bundle opened and a handful of pennies were rattling and rolling upon the asphalt.

Gathering in the Coin.

Like a flash of lightning, that colony of newsboys were rolling and tossing over the street for the pieces of coin, laughing, yelling and shrieking in their merriment as they mingled in gathering up the coppers. The laughter and evident merriment of the boys attracted the attention of the sidewalk occupants. But before the cause of happiness could be ascertained another package floated from the window, and another downpour of coppers came. The lads were wise before the metal began sounding upon the street, and, like a troupe of trained monkeys, they were climbing over, crawling under and shoving each other aside to grasp the gift from the windows above, to gather in the coin that came like the manna from the heavens.

Laughter and squealing, indicating happiness and merriment, filled the air as the lads were filling their pockets and asking for another contribution.

Heads protruded from other windows on other floors and a panic of gift seemed to seize every other floor. Coins came dropping in profusion and the crowd of boys grew as the gifts multiplied. Within fifteen minutes there were a thousand people banked within the section of the viaduct, men crowding the sidewalks, boys thronging the streets, their happy, eager faces upturned as an invitation for another scramble the instant an active mix-up to acquire what had been thrown ceased.

The officers of that beat came into action and for a few minutes chased the lads with the leather straps attached to their clubs. But the kids were as reckless as the officers wanted to be kind, and it was a battle royal between the blue-clad men and the boys, the men bent upon keeping order without being rough, the boys determined to gather in every piece of currency that a window above would let out. Within a short time there was not a window on the Peachtree side of the Fourth National Bank building that was vacant. Men, women and children were tossing coins to the growing crowd of money-hungry boys below, and with every fall it was a scramble for what was coming down. Street car men found their progress obstructed by youngsters, who gave their bell no time, no attention, no thought.

Officers Were Powerless.

The coin-grabbing went along until the officers on that block found themselves powerless. They could not use force against boys and a call was sent to po-

TODAY and tomorrow are the last days in which the voters of Fulton and other counties in the state can, by registration, qualify for participation in the state primary of August 22.

FROM PRISON LYNCHERS MAY BE RESCUED

Feared That Strong Party May Break Into Salisbury Jail.

ONE OF MOB MEMBERS FACES MURDER CHARGE

Burning of Barn of Murdered Family Revives Flames of Hatred in North Carolina Town and Sets Wild Rumors Flying.

Salisbury, N. C., August 9.—While there are no visible signs of trouble, there are persistent rumors for the organization of a strong party to liberate from Salisbury jail the lynchers of the three negro murderers of the Lyerly family.

George Hall and ex-Convict Francis Cress and "Bud" Bullobaugh were arrested yesterday, and George Gentle, a well known young man of this section. J. H. Goodman and John Cauble, of Salisbury, are in jail, and all will be tried on the charge of murder. Judge Long issued the bench warrant for Gentle after the latter's remarks in the presence of the officer, who later arrested him, that he had helped string up the negroes.

The men arrested were taken into court at 3 o'clock this afternoon. Hall alone was arraigned. He was charged with murder on three counts. He pleaded not guilty, and inability to employ counsel. At his request, former Congressman Theodore F. Kluttz was appointed to defend him. P. S. Carlton, of the Salisbury bar, will represent Gentle. Judge Long warned the other prisoners to employ counsel.

Lyerly Barn Burned.

Early this morning the barn of the Lyerlys was burned, and two horses were fatally injured. Some say the negroes fired the building in a spirit of revenge, but others believe that the lynchers touched the torch in order to arouse the wrath of the people against the negroes and in favor of the mob. No one has been apprehended for this crime.

The military still guards the jail and court house, and gatling guns will be fired on a mob should it attempt to enter the jail premises.

A special venire of sixty men has been ordered, and from this number a jury will be selected to try Hall, whose case will be called tomorrow morning at 10 o'clock.

Rome, August 9.—There was a brilliant celebration in the Sistine chapel of the vatican today of the third anniversary of the coronation of Pope Pius X.

Cardinal Merry del Val celebrated mass in the presence of the pontiff, cardinals, bishops, diplomats and nobility.

AFTER BATTLE IN MOUNTAINS BALL GIVES UP

Sheriff and Militia Besieged Kentucky Desperado in a Mountain Cabin.

BALL SURRENDERS ONLY WHEN CABIN IS RIDDLED

Ball Escaped From Jail at Richmond, Ky., and Took Refuge With His Friends' Sheep in Mountains—Will Be Taken to Penitentiary.

Middlesboro, Ky., August 9.—Frank Ball, who escaped jail at Richmond Ky., was captured late this afternoon by Sheriff Rice Johnson and posse after a battle which raged for one hour. Ball, some time ago, killed Jack Bolen, a Middlesboro barber, and after escaping into the mountains was finally landed in jail at Richmond, Ky., through the work of the Middlesboro military company.

Not long ago he broke jail and has since been hiding in the mountains. Wednesday night Ball was located in a log cabin near Rose Hill, Va., and Sheriff Johnson and sixteen deputies started out to capture him. Reinforcements were sent for, as it was feared that Ball's friends and relatives might go to his aid. Nearly thirty members of the Middlesboro military company volunteered as deputies and left by special train.

Thursday morning, under a truce, Sheriff Johnson went to the cabin and demanded Ball's surrender. This he declined. Late this afternoon fire was opened on the cabin by the sheriff's forces and after John Lee, one of Ball's men, had been killed, Ball surrendered. Ball will be taken to the Kentucky penitentiary at Frankfort tonight. The house in which Ball took refuge was riddled with bullets from the guns of the large posse.

HERING KNOCKS AT JAIL DOOR

Missing Chicago Cashier Surrenders to Police.

Chicago, August 9.—Henry W. Hering, cashier of the Milwaukee Avenue State Bank, which closed its doors three days ago, was arrested today and will be denied bail until his connection with the disappearance of nearly $1,000,000 of the bank's funds is cleared up. Paul O. Stensland, president of the defunct institution, is still a fugitive and although nearly one hundred detectives are searching for him, his whereabouts are still a mystery.

Hering was arrested this afternoon, two hours after he had announced that he would give himself up. He was taken to the office of Chief of Police Collins and put through a thorough examination as to his knowledge of President Stensland's mismanagement of the institution. Hering declared he did not know where President Stensland was and had no communication with him for over a week. The cashier stenuously denied the charge that he (himself), was partly responsible for the failure of the bank.

Statement Unsatisfactory.

Bank Examiner Jones and Assistant State Attorney Olsen were present during the examination of Hering. Neither they nor the police were satisfied with the explanantion given by Hering of his connection with the collapse of the bank, and it was accordingly decided to refuse bail to Hering until the matter had been investigated.

Receiver Felzer reported to the superior court today that a divivdend of at least 25 per cent probably would be declared to depositors in the bank within the next two weeks. This, it is said, will be followed by a second dividend, although the receiver tonight was not in a position to state how much of their savings the 22,000 depositors would recover from the defunct institution.

At a meeting of the board of directors of the bank today, a resolution was adopted appointing a committee to devise ways and means for apprehending President Stensland and straightening out the affairs of the bank. The directors declare that there will be found a sufficient revenue from the property, assets, etc., to pay all the depositors in full.

Cooperative Store to Close.

One of the results of Hering's reappearance will be that the cooperative store, said to have furnished a channel for dissipating nearly $500,000 of the bank's funds, will be closed. Receiver John C Felzer said this morning that he will ask instructions of Judge Brentano on disposition of stock in the store.

Another development expected today is that the estate of the fugitive bank president, of an estimated value of $600,000, will be added to the receiver by Theodore Stenslan.

"I am collecting the assets of the bank, not running business enterprises," said Receiver Felzer today. So the store will be closed.

Receiver Felzer declared that the first statement of cash in hand at the bank was nearly $300,000 too high. It was said there was $1,050,000 cash in sight. Instead, there is only about $750,000.

"This does not necessarily mean a loss," Mr. Felzer explained, "but there were many items carried on the bank's books as 'cash' that were not so in reality."

ENGINE AT HIGH SPEED DASHES THRO' WALL OF COTTON FACTORY

Picture Showing the Result of the Accident to the Middle Georgia Mill, Eatonton, Ga., in Which a Backing Freight Train Crashed Through the End Wall of the Main Building.

EATONTON, Ga., August 9.—(Special.)—The accident to the Middle Georgia Mills, in which a great hole was knocked in the end wall of the main building by a backing freight train, an account of which has appeared in The Constitution, resulted in no injury whatever to the mill operatives or train hands. The mill was running at the time, and the building filled with operatives engaged at their usual work, but fortunately no one happened to be near the place of the catastrophe. The air brakes refused to work and the engine became unmanageable ,and the train rushed down the heavy grade and crashed against the building with terrific force, the crash being heard a mile or more away. The structure was jarred to its foundation. The main shafting extending through the entire building was struck, knocked out of plumb and bent, which may require resetting of the entire machinery. The end wall of the mill is cracked and shivered so badly it will have to be torn out and rebuilt. The damage sustained by the mill will run up into the thousands, to say nothing of delay in its operations and shipment of goods. When the engineer realized his helplessness to control the engine, he shouted to the fireman and thrainmen to jump for their lives, but he bravely stood by the throttle until the crash came.

AUGUSTA BUCKET SHOPS WILL CROSS THE RIVER

Brokers Will Move to South Carolina and Do Business by Telephone---Quotations To Be in Augusta by Ticker.

AUGUSTA, GA., August 9.—(Special.) While the Boykin bill effectively stops future contract dealing in Atlanta and Macon, Augusta and perhaps other cities will continue business. The bucket shops and brokers here will merely move across the Savannah river into South Carolina and continue operations through the medium of telephonic communication. It is understood quotations will be furnished in the city of Augusta by the use of tickers.

TWO GOVERNORS LEAP TO ESCAPE DEATH

Auto Containing Executive Chiefs of Maryland and Ohio Run Down by "Big Four" Limited, Going Fifty Miles an Hour.

SPRINGFIELD, Ohio, August 9.—Governor Warfield, of Maryland and Governor Harris, of Ohio, and General J. Warren Keifer, who are attending the reunion of Marylanders' Association, had a narrow escape from death today while they were making an automobile tour of the city. The car of former Mayor Bowlus was piloting the party and was closely followed by the car containing the two governors and General Keifer. Just as the car crossed the main track of the Cleveland, Cincinnati, Chicago and St. Louis railroad, it broke down. The hind wheels were still on the track and the governors' car had pushed within a few feet when the gates closed behind it. Seeing their peril they jumped just as the "Big Four" limited dashed by. Two feet further would have meant instant death for the entire party as the train was running at the rate of 50 miles an hour.

GIRL WHO SAILED IN SKY TAKES POISON IN TEXAS

FORT WORTH, TEXAS, August 9.—It developed today that Mrs. F. A. Crenshaw, who committed suicide here Tuesday afternoon by taking strychine, was Nellie Devaughn, the well known aeronaut and circus performer. At her funeral today the woman was recognized by a newspaper reporter, and her husband being questioned, admitted her identity.

Mrs. Crenshaw was the first woman to sail the sky in a modern airship. This she did on September 25, 1905, in Los Angeles, Cl. On her voyage she ascended to the height of 2,000 feet.

On a second ascent she ascended even higher.

She also traveled with several circuses and musical comedy organizations.

At the time of her death she was 19 years of age.

Mr. and Mrs. Crenshaw came here several months ago from California.

There was no known cause for the suicide.

AT FATHER'S COMMAND BOY SHOOTS NEIGHBOR

FREDERICK, MD., August 9.—At the command of his father, Fred Debold, eleven years old, son of John Debold, shot and killed George Smith, son of their neighbor, Edward Smith, near here, last evening. There had been bad feeling between the two families, and yesterday they quarreled over blackberries the Smiths had picked off Debold's land. "Shoot him," said Debold to his son, pointing at the younger Smith.

The boy fired a load from a shotgun, which struck Smith over the heart, killing him instantly. Both Debolds are now in jail.

HUSBAND CHARGES THEFT OF HIS WIFE AND BABY

NEW YORK, August 9.—Henry Ralph Weaver, 24 years of age was held in police court today to await extradition papers from Pitsburg on a charge of abduction. Sylvester C. Laney, of Pittsburg, apeared against Weaver and accused him of having left Pittsburg on July 18 last, in company with Laney's wife and their 14 months' old baby. In court Weaver refused to disclose the whereabouts of Mrs. Laney and the child. Weaver was arrested today at the postoffice when he called for his mail.

NEGROES GUARDED BY GATLING GUN

Alleged Kentucky Murderers Are Surrounded by Soldiers.

Negroes Are Awaited at Barboursville, Ky., by Great Crowds, and It Is Feared Their Arrival Will Be Signal for Mob Violence.

Barboursville, Ky., August 9.—Frankfort battery, 100 strong, with a gatling gun squad, is expected soon with Jesse Fitzgerald and Annie Henson, charged with the murder of Mrs. Robert Broughton.

Officers left secretly last night for Stanford for the prisoners and people here are in the dark regarding their movements. This morning a party of men is reported to have gone through the train at Corbin, south of here, expecting the negroes to be on it. This occurrence was repeated yesterday morning and last night. In this city all is quiet today. There is a large crowd in town and the court room is crowded. The trial was to have been started today, but it is possible it may not start before Monday. Local troops have assebbled and are ready for duty.

BOY DYNAMITE ARTIST ADVISED BY BONAPARTE

WASHINGTON, August 9.—Secretary Bonaparte wrote a letter today to an embyro Nebraska inventor which was designed to interrupt some interesting experiments in throwing explosives.

John Sweeney, a 17-year-old boy, of Ericson, Neb., wrote to the secretary asking for a full statement of the requirements for admission to the naval academy, preparatory to becoming a useful officer of the navy.

At present the young inventor says he is able to throw .064 of an ounce of dynamite 150 yards with a winchester rifle of 44-calibre, range 300 yards. With a large seige gun he says he believes he could throw 400 pounds of dynamite 6 miles and asks if his achievements will not assist him in gaining admission to the Annapolis academy.

Secretary Bonaparte replied to the young man that his experiments were better adapted to taking him to a cemetery than to the naval academy and suggested that he abandon them and adopt some other means of preparing himself for a naval officer.

TWO ARE KILLED IN AUTO CRASH

Two Are Injured and Two Unhurt.

Racing Motor Collides With Farm Wagon on Country Road Near New York—Car Was Moving at Terrific Rate of Speed.

New York, August 9.—Two chauffeurs were killed, two injured and two escaped unhurt, when a new racing car plunged into a farm wagon on Thompson avenue, near the Winfield crossing of the Long Island railroad, in Queens borough, tonight. The driver of the farm wagon leaped to safety before the crash.

The men killed were William Walker, 23 years of age, and Harry Woodcock, both of New York. The men injured, who are in St. John's hospital in Long Island City, are Frederick Wressenburg and William Brown, also of Manhattan.

The car was a new one, which was taken out by Brown to test. It was close to midnight, and there seemed little chance of meeting vehicles.

The automobile was moving at terrific speed when the wagon loomed in view. It was too late to avoid a collision, and the heavy machine crashed into the truck. Woodcock and Wallrer were hurled through the air, and both landed on their heads and their skulls were crushed in.

HOKE'S SPEECH LOST HIM VOTES

Radical Assertions Disgusted Many Macon Citizens Who Heard Him.

Macon, Ga., August 9.—(Special.)—Hoke Smith spoke here tonight in the city auditorium, dealing with the issues which he discussed in his previous visit. The greater portion of his speech was devoted to vilification of prominent citizens, to abuse of the railroads, and a long discourse upon the negro in politics. The crowd was made up of supporters of all the candidates. His radical views and rash declarations lost Hoke Smith what strength he had among the conservative citizens of the county, and the friends of other candidates present took ocasion to express their disapproval in strong terms.

Venetian Fete Made $5,000.

(From The New York Herald.)

Newport, R. I.—Five thousand dollars in net profits are already in the hands of the committee which ran the Venetian fete at the Casino on Saturday, and it is probable that another thousand will be added to it. This is very much more than the most sanguine projecters had any idea would fall into their hands, and it is a little difficult for them to believe their own eyes as they foot up their accounts. The profits will be divided between the Army and Navy Young Men's Christian Association and a department of the Newport hospital, so every cent will go to the benefit of this city.

700 ARE KILLED AND WOUNDED

St. Petersburg, August 9.—Reports received here today tell of a bloody battle having occurred this morning between the Tartars and the Armenians in the Shusha district, and 700 were killed or wounded.

It is reported that the hostilities, which recently subsided, are again in full force.

Mayor Headed Horse Thieves.

Williston, N. Dak., August 9.—W. N. Denny, mayor of Williston, and a prominent banker, has been found guilty on the charge of receiving stolen property. It was charged by the authorities of Valley county, Montana, that Denny was the head of a band of horse and cattle rustlers, and that he disposed of the booty acquired by the gang. The case had been on trial all the week, and the jury tonight found him guilty. Sentence has not yet been imposed.

HYSTERIC LYING DONE BY HOKEITES OF DALE

TRENTON, GA., August 9.—(Special.)—The Hoke Smith supporters in this section have been reduced to a state of pitiable hysteria that should call for the services of some insanity experts.

Having failed utterly in their efforts to make some charge against Mr. Howell that would stick in the face of that gentleman's record in the service of the state, they are now circulating through the militia districts of Dade the report that Mr. Howell IS ONLY TWENTY-FIVE YEARS OF AGE, AND THEREFORE IS NOT OLD ENOUGH TO BE GOVERNOR!

This makes Clark Howell the BOY WONDER of American politics.

For it means that when he was first elected a member of the legislature he must have been JUST SIX YEARS OLD!

That he was speaker of the house AT THE MATURE AGE OF TEN.

That BEFORE HE WAS TWENTY he had been elected to the presidency of the state senate—a position which even his political enemies admit he filled with honor to himself and credit to the state.

HOW "SEAB" HAS CHANGED ON "NIGGER" SINCE 1896

CEDARTOWN, GA., August 9.—(Special.)—A good many of the voters of Polk county have expressed regret that they have not yet been favored with a speech from Seab Wright upon his favorite theme of "nigger."

They think that the newspaper reports of Mr. Wright's speeches, particularly those which have appeared in The Atlanta Journal, must have done him an injustice, since they have seen in none of these reports an explanation by Mr. Wright of his reasons for changing his attitude on the negro question since that populist convention of 1896 when his nomination was eloquently seconded by the negro delegate, Walton, "in the name of the negroes of Georgia."

CORRUPTION IS CHARGED AGAINST BRITISH ARMY

Royal Commission Flays Service Corps--Declares $5,000,000 Was Lost by Incompetency and Mismanagement---Officers Received Bribes.

LONDON, August 9.—The war office has issued the report of the royal commission which was appointed to investigate the South African war stores scandals. While the report acquits the British commissary officials concerned from the worst charges of corruption, it finds that the losses, equaling about $5,000,000, were due rather to grave mismanagement and incompetency than to graft.

The commission criticises severely several officers and public servants, and charges a number of non-commissioned officers with receiving bribes. It declares the errors were due to deplorable and complete want of coordination and the divorce of interests between the different departments of the war office. The army service corps is declared to have been utterly wanting in business training and experience.

PRISONERS FOUND DEAD; CELL MATE SUSPECTED

LUFKIN, TEX., August 9.—H. H. Trawick and Sam Chandler, white men conned in the Angelina county jail here, were found dead in their cell this morning, the skulls of both men crushed, and John Wilson, held on a minor charge and confined in the same cell as Trawick and Chandler, is held charged with having murdered his cellmates.

While denying that he committed the crime, Wilson has made a number of conflicting statements concerning the tragedy. He declares that at one time during the night he discovered the men fighting and separated them. An earthen cuspidor found in the cell was evidently the weapon used. It is believed the men were killed while they slept.

HURLS BABY TO DEATH THEN ATTEMPTS SUICIDE

CINCINNATI, August 9.—Thomas McKenna, awaiter at The Grand hotel, threw his three-year-old child from the third story window of his home at 109 John street today, and then jumped from the window to the sidewalk below. The child was dead when picked up, while McKenna died on the way to the hospital. McKenna is believed to have been mentally unbalanced.

ISLAND FORMED IN JUNE IS NOW 900 FEET HIGH

TACOMA, WASH., August 9.—Captain Truebridge, of the steamship Northwestern, today displayed a photograph that he brought from the north, taken by an officer of the revenue cutter Perry, of a newly formed island lying 50 miles west of Dutch harbor, directly between the Bogoslof islands, commonly known as Castle and Fire islands. The new island made its first appearance during June, and is now 900 feet high. The length could not be ascertained, as the Perry could not get close enough to make an accurate measurement. Clouds of steam rise from its summit, and it is surrounded by boiling water.

PRACTICAL JOKERS SHOT AT HIRSCH FROM AMBUSH

LAST night, when M. Hirsch and a friend were walking through a stretch of lonely woods in the vicinity of Wyman street and Capitol avenue, a number of shots rang out on the night air, apparently from several men in ambush, and Hirsch broke into a run to keep from being shot down. He was severely bruised and scratched from falling down and rolling over in the mad endeavor to escape.

It later transpired that the whole affair was a practical joke, and that Hirsch's companion in the lonely walk was one of the conspirators. Hirsch was thoroughly frightened, and covered a good distance in a swift run before considering himself out of danger.

Many people heard the shots and called both the city and the county police, and, as the scene of the ambush was outside of the city limits, the city police did not respond.

Chief Turner, however, sent County Officer Poole to the place, and on his arrival he learned that the affair was a joke and did not make further investigation. Officer Poole stated last night that the extent of the injuriees done by the shots was a bad scare and many bruises for Mr. Hirsch.

AUTOISTS WILL RESENT GERMANY'S HEAVY TAX

BERLIN, August 9.—The Confectionair, the most important dry goods newspaper here, complains that the new automobile tax seriously affects warehouses and hotels near the German-French frontier, as foreigners, in order to express this dissatisfaction at the tax and avoid its payment, will not bring their automobiles into Germany. The tax amounts to $3.75 for a sojourn of up to five days and $10 for a thirty days' stay in Germany.

PLACED LITTLE TIN COFFIN UNDER NEGRO WOMAN'S STEPS

"Come quick, officers," said a sweet feminine voice over the telephone last night about 6 o'clock. "Old Martha Turnipseed, our servant, who lives in our backyard, has hysterics over a coffin that's been left by some one under her doorsteps."

Call Officers Dorsett and Hulsey responded and alighted from their bikes at 12 Love street, the scene of the trouble and rushed into the little shanty of old Martha. The officers found the cause of the trouble, which proved to be a little tin coffin, stuffed with old hair and several bad looking red vials of colored water, with the lid spotted with some red fluid to imitate blood, and the bold inscription to "beware." It required some minutes and a considerable quantity of cold water to revive old Martha, and assure her that it was all a hoax placed there by some miscreant to frighten her. The officers took possession of the queer looking "conjure box" and brought it back to the station house, where it was viewed by many curious eyes during the evening.

NEGRO ESCAPES FROM OFFICER

Kute Bates Was Wanted for Attack on Atlanta Officer.

Kute Bates, the negro, who on the night of April 1 last kicked Officer Covington into unconsciousness near Butler street and College place, then shot him twice escaped from officers in Chattanooga last night after being captured there Wednesday.

While being taken to the railway station to be brought to Atlanta to answer for his crime, Bates, with handcuffs on, made a break from liberty and successfully made his escape from Officer Brannen, of the Atlanta police department and Chattanooga officers. He had not been recaptured last night.

The negro had been at liberty since the night of his assault on Officer Covington in April up to the time of his capture by Chief Mosely, of the Chattanooga force, on Wednesday last, and Officer Brannen was detailed to bring the negro from Chattanooga to this city, and it was when he was taking Bates to the depot to start on the journey to Atlanta that he got away from Brannen and the other officers.

New York, August 9.—Judge Thomas W. Fitzgerald, of the court of special sessions, was adjudged guilty of contempt of court by Justice William D. Dickey, in the supreme court, Brooklyn, today. The justice had been ordered to appear in court to submit to an examination in supplementary proceedings in connection with a judgment for $2,000 against him, and did not do so. An attorney appeared for him and sought an adjournment until tomorrow, saying that the trial of criminal cases would occupy his attention all day.

THEATERS.

At the Casino.

Another capacity testing gathering assembled assembled at the Casino last night and enjoyed the Ponce de Leon amusements after the excellent vaudeville performances in the summer theater.

Brindamour, the mysterious, added another great record to his credit, escaping from a horrible looking pair of handcuffs that had been locked on by a local policeman, and then followed by being tied up by a committee of constables and policemen, and escaping from the ropes in four minutes.

Abadel Kader, with the assistance of his wives painted beautiful landscapes and character pictures, Bob Harty and Johnny Johnson sang delightfully, and Charles Semond made music.

There will be performances tonight and matinee and night tomorrow.

The Elenora Sister, quaint comediennes, as clever as any known in the land, will head the bill of comedy and novelty to be offered at the Casino next week.

The make up of the bill promises to hold well to the pace that has been set, and the principal feature will be strong comedy, while there is much that is of a novel and interesting.

A feature for the ladies and children will be Jacob's marvelous acrobatic dogs, and a comedy feature will be the contribution of Morris and Morris eccentriques direct from the Palace, London.

STEAL WAGON AND BURN BARN

Seven Negroes Sentenced for Arson In Fairburn Superior Court.

Fairburn, Ga., August 9.—(Special.)—Fairburn superior court has been engaged for two days in the trial of an important arson case, and, as a result, seven negroes have either pleaded guilty or been found guilty of burning the barn of J. J. Nixon, a prominent citizen of this county, involving a loss of about two thousand dollars. The negroes broke into the barn on the night of July 6 and stole two wagon loads of corn, and then, in order to hide that crime, set fire to the barn, which was entirely consumed, with its contents. The negroes were Tom Jackson, Mage Vaughn, Jerry Weaver, Berry Weaver, Tom Vaughn, Reuben DeVine, Will Cranfield and Jeff Mays. The last named confessed to assisting in the stealing, but did not participate in the burning, and saved a horse and mule by turning them out of the stable. He was sentenced to twelve months, and the three first named older negroes were given by Judge Roan the limit of the law, seven years each in the penitentiary, while the younger negroes, who were employed by the others to help them, were given five years each.

The affair appeared to be a general family row, which turned out seriously. Henry Jackson, one of the participants, was almost disemboweled, and in addition to this received a wound in his heart. He is at the Grady hospital, but is not expected to live. Andy Tenerman is also at the hospital badly cut.

Luella Dumas received a cut on the arm, but was able to be taken to the police station, where she and five other negroes are being held.

CHORUS GIRL'S PRANK MADE THAW SHOOT

Pretending To Be Evelyn Thaw She Visited White's Den During His Absence--Architect Sent Note and Flowers Next Day--Tragedy Followed.

NEW YORK, August 9.—New evidence providing a plausible motive for the killing of Stanford White has lately came into District Attorney Jerome's possession. An inkling of the facts was conveyed to the district attorney directly by Florence Ziegfeld, a theatrical manager, who is the husband of Anna Held and who is at present living in Paris. The story is that Mr. White sent a note and a basket of flowers to Mrs. Evelyn Nesbit Thaw the afternoon of the shooting, and that the tragedy grew out of the thoughtless mischief of three chorus girls. Mr. Ziegfeld met one of his New York theatrical friends in a railroad station in Paris a little while ago and the conversation drifted to the Thaw tragedy. Mr. Zeigfeld expressed surprise that the authorities had not yet got hold of evidence which would go a long way toward clearing up the mystery heretofore cloaking the motive of Thaw.

"The tragedy occurred some days prior to my last trip from America," said Mr. Zeigfeld, "and I was full of it on my way over. It was the principal subject of conversation on deck and at table. Among the passengers was a young woman very well known to the amusement loving New York public who was a prominent member of the chorus in one of my productions. Naturally we chatted and the Thaw tragedy was touched upon. I found that she knew something which the district attorney would give a great deal to know.

"She told me that she accompanied two other members of my old company to pay a farewell visit to Mr. White in the tower of Madison Square Garden the night prior to Mr. White's death. They were to sail in a few days. Mr. White was not there and as they were leaving the place an attendant asked what names he should report to Mr. White as those of his visitors.

"'Oh,' said one of the girls, laughing, 'you need only say that Mrs. Harry Thaw called.'

"They departed and pictured to themselves a dozen funny denouements which might arise out of Mrs. Thaw's vicarious call. Next day Mr. White, according to this girl, sent a neat little note to Mrs. Thaw expressing his regret at his absence at the time of her call and dispatched a basket of roses to her address. My informant believed that Thaw saw the roses, read the card attached and perhaps read the note which accompanied them."

It is known that this young woman is now in New York, having returned, it is said, at the request of Mr. Jerome. It is believed she will be one of the most important witnesses.

THAW REFUSES CUTLERY; QUARRELS WITH CATERER

New York, August 9.—Because he was not furnished a knife and fork with his meals, Harry K. Thaw quarreled with the prison caterer who had been furnishing him food. Thaw's breakfast today consisted of plain prison fare. He ordered his luncheon from a nearby hotel. The caterer said that Thaw insisted on having a knife and fork, though knowing that it was against the prison rules to furnish them to prisoners charged with capital offenses. He said that Thaw complained so often to him that he determined to serve him no longer. It is said that when Thaw was first placed in the Tombs Warden Flynn suggested he order such foods as could be easily eaten without the use of a knife and fork, as no exception would be made in his case.

NEW YORK SYMPATHIZERS SHOWER FOOD UPON THAW

New York, August 9.—Harry K. Thaw today was suddenly made an object of general and large generosity, for good literally poured in on the prison authorities for him. Chicken, roast beef, stews, ragouts, soups, fish, vegetables, pies, puddings and coffee figured in the list. One order from a Wall street cafe was large enough to have kept the prisoner in food supplies for several days. Moreover, accompanying all these eatables, were knives and forks, which prisoners charged with capital offenses are not allowed to use with their meals. The warden had difficulty in stopping the stream of messengers bringing food. The incident was due to a report widely current earlier in the day that Thaw had quarrelled with the prison caterer, who has been furnishing him with meals, and in consequence he had breakfasted or ordinary prison fare. The report had it that the disagreement was due to Thaw's insisting on a knife and fork being supplied with his meals. Late in the day Thaw's attorney, Clifford W. Hartridge, explained that there was no foundation for the report beyond the fact that Thaw's caterer had been taken ill, and could not work yesterday.

BRYAN COMMITTEE INCREASED

Additions to Those Who Will Welcome Nebraskan.

New York, August 9.—At a meeting of the executive committtee of the William J. Bryan reception committee today, the following additional members were elected: Col. A. C. Drinkwater, of Massachusetts; ex-Governor Benton McMillan, of Tennessee; State Senator Thomas F. Grady, of New York; Father Ducey and Col. Jacob Ruppert; Thomas F. Smith was chosen recording secretary to serve at the reception at Madison Square garden.

Judge Feltner reported that an effort would be made to seat all state delegations as far as possible.

George W. Sweeney, chairman of the committee on hotel arrangements, reported that from what he had learned at least 500 people will come f rom Nebraska to welcome Mr. Bryan on his return to America. The executive committee has asked John C. Collins to wait upon hotel men for subscriptions to the reception fund.

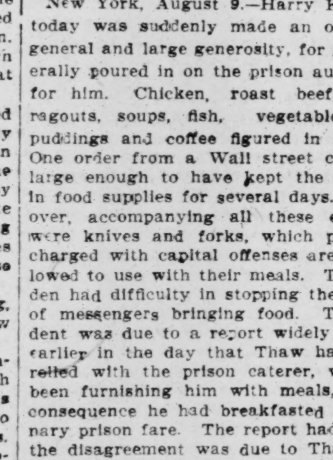

KANSAS CITY GETS 25-CENT GAS

Missouri Municipality Wins Long Drawn Out Fight.

Kansas City, August 9.—Kansas City won its long fight for cheap gas when Mayor Beardslee today promised to sign the so-called Fleming-Wilson natural gas ordinance, granting a franchise to a syndicate of Chicago capitalists and passed by the city council last night. The franchise is to run for thirty years, and it provides that as long as the supply of natural gas is reasonably accessible it is to be furnished at 25 cents per 1,000 cubic feet for domestic consumption, and at 10 cents for manufacturing purposes. If the natural gas supply fails, the artificial gas is to be furnished at 75 cents per 1,000 cubic feet. The city may purchase the gas works at any time, providing the grantees receive their profits for ten years.

The Kansas City, Mo., Gas Company now holds a franchise to furnish gas at $1.10 per thousand feet. The new ordinance will be signed as soon as it reaches the mayor, which probably will be tomorrow.

FILTHY STORIES TOLD BY "RUBE" AND "BOB" COST HOKE MANY VOTES

CARROLLTON, GA., August 9.—(Special.)—It was impossible for your correspondent to send a full report of the speeches delivered here in behalf of the "divine" call candidate by Rube Arnold and Bob Berner, Hoke Smith's law partner, for the reason that these speeches consisted principally of smutty stories which could not be printed in any newspaper.

It is noticed here, and the matter has been a subject for general comment, that even The Atlanta Journal did not give any of the details of this meeting. Probably the publishers of The Journal realized that if they attempted to give anything like a true report of what happened their paper would be debarred from the mails.

The speeches of Mr. Arnold and Mr. Berner had a decidedly depressing effect upon many people who have been inclined to support Hoke Smith because of his reported activity in Sunday school work. Some of those who have sought heretofore to defend Mr. Smith's ownership of the Piedmont Hotel bar on the ground that this should be overlooked in the light of his "divine call" to run for governor, make no secret of their disgust at the character of campaign now being waged in his behalf.

HARDWICK AS A PURIST CAUSES JOY AND REGRET IN THE TENTH DISTRICT

GIBSON, GA., August 9.—(Special.)—The announcement that Billy Hardwick has developed into a purist in politics—especially that he has taken a stand against the use of money in primary elections—is hailed with delight in this section. The delight is, however, not universal. It is noted that certain persons in some of the counties of the tenth district who manifested particular activity in the contest between Mr. Hardwick and Mr. Fleming have not yet joined in the general rejoicing. Perhaps the news has not reached them as yet.

ANTI-SHEA MEN HOLD CONVENTION

Bolt From the Session and Regularly Organize.

Declined to Submit to Boston Man's Dictating—Organization's Split Believed to Be Permanent—Regulars Select Shea.

Chicago, August 9.—Confronted by the certainty that the International Brotherhood of Teamsters would reelect C. P. Shea and his chosen ticket, the insurgents who bolted the regular convention yesterday and started up a rival meeting kept up their "strike" today against the Shea contingent. Overtures were ignored by the bolters, who proceeded to organize a convention of their own and planned to adopt by-laws and a constitution. They insisted that they would never be reconciled to the rule of President Shea. Officers elected by the "regular" faction today are:

President—C. P. Shea, Boston.

Vice Presidents—Ed Mulley, Chicago; J. H. McCarthy, Chicago; George F. Golden, Chicago; W. J. Gibson, Chicago, and C. F. O'Neal, Buffalo.

Secretary-treasurer—Thomas L. Hughes, Chicago.

Auditor—George W. Briggs, Chicago.

Trustees—Charles Welsh, New Orleans; John Longstreet, Cincinnati, and John Butler, Chicago.

Delegates—American Federation of Labor, Emmett Flood, Chicago; Lawrence, Providence, R. I.; T. T. Tone, Washington, and Thomas Barry, Chicago.

President Shea declared the election would be carried through according to programme as soon as officers' reports were read today.

Secretary Hughes' report shows that the organization has gained in membership from 46,000 at the beginning of his term to 48,000. Albert Bijaeu, the San Francisco representative, whose credentials were under question, was seated. In the "rump" meeting it was freely predicted that the Shea crowd would not dare to hold an election with a third of the delegates absent. The bolters selected committees for the purpose of organizing a new union and refused to recognize committees from the Shea camp.

GIRLS INCITED RUSSIAN MUTINY

Female Students Caused Outbreak at Cronstadt.

Young Women Frequent the Public Houses and Brought Influence to Bear Upon Sailors—The Imperial Family May Visit Finland.

St. Petersburg, August 9.—The Bourse Gazette makes the startling charge that the revolutionary agitation among the sailors at Cornstadt was incited by the university girl students, who frequented public houses patronized by the sailors in order to bring them under their influence.

RUSSIAN IMPERIAL FAMILY TO VISIT FINLAND SHORTLY

St. Petersburg, August 9.—In view of an improvement in the situation a number of the guard regiments have already returned to their summer camp at the Tsarskoe-Selo. The emperor has arranged to go there Saturday and spend five days. These imperial visits to the guard camps are gala occasions and are always marked with festivities, theatricals, banqueting and toasting among the various regiments. The empress' yacht which has been under repairs for two years, steamed to Peterhof last night, leading to the belief that the imperial family will soon make their postponed visit to Finnish waters.

Court circles are greatly relieved by the prospect of a period of calm which will give the government an opportunity to inaugurate its program. The Russia today says it is the intention of the government to fight a counter revolution with the same energy it has been waging war against the enemies of society and expresses the hope that moderate public opinion equally hostile to both extremes, will grow rapidly.

The Novoe Vremya, taking as its text the failure to employ summary executions as a deterrent to mutinies, complains that for years the government has not known how to employ firmness.

Moscow Strikers Resume Work.

Moscow, August 9.—The resumption of work here was complete today, but arrests of agitators and chiefs of workmen's organizations continue. Many of the more active of the workmen have been expelled from the city.

St. Petersburg, August 9.—The following appointments to the cabinet have been officially confirmed:

Prince Vassil Chikoff, minister of agriculture.

M. Filosoff, minister of commerce,

M. Iswolsky, procurator general of the holy synod.

REVENUE BOAT ORDERED BACK.

President Sends the McCullough to Alaskan Waters.

Washington, August 9.—President Roosevelt has ordered that the revenue cutter McCulloch, which has been doing patrol duty in the vicinity of the Pribiloff islands, in Alaskan waters, be directed to resume that duty.

The assignment of the revenue cutters to such special duty can be done under the law only by the president. When the question arose as to whether the McCulloch or some other revenue vessel should be assigned to the duty of protecting the seal herd about the Pribiloff islands, the president was communicated with at once. He telegraphed today that the McCulloch should be sent at once to the islands, and orders have gone forward to that effect to the commander of the vessel. She is now in Alaskan waters, where she conveyed Solicitor Sims, of the department of commerce and labor, and the Japanese prisoners captured on St. Paul island.

BROUGHT NEGRO TO ATLANTA.

Alex Conally, Charged With Assault, Hurried From Griffin for Safe Keeping.

Deputy Sheriff Allen last night brought Alex Connally, the negro boy charged with assault, to Atlanta for safe keeping until his fate is decided by the jury before which he was tried yesterday.

Connally was charged with assaulting little Annie Jester, near Griffin, July 21. At the time her little sister was with her, and she screamed for help, with no result.

The negro when captured was rushed to Atlanta, narrowly escaping a mob on the way, which tried to take him from the chief of police at Experiment Station.

Connally was sent back to Griffin to stand trial, and was returned to Atlanta last night to insure safe keeping until a verdict is rendered by the jury.

PRES. MITCHELL URGES HARMONY

Addresses Joint Convention of Miners and Operators at Knoxville.

Knoxville, August 9.—President John Mitchell, of the United Mine Workers of America, today addressed the joint convention of coal miners and operators of district No. 19, including mines of East Tennessee and Southern Kentucky. Mr. Mitchell cautioned both sides to exercise conservatism and sound business judgment in their negotiations, and advised both to prepare to make concessions, in behalf of peace and harmony throughout the district. He predicted the time when strikes and lock-outs will be no more, but said "we will never live to see it."

Following Mr. Mitchell's address, the conference took a recess pending the report of the joint wage scale committee, which is now working in an effort to form a scale effective September 1. The miners want a restoration of the scale of 1903, which is an advance of 7 1-2 per cent over the present scale; an eight-hour day and an increase in the allotment for yardage proportionate to the increase sought in the wage scale. It is said the operators are willing to restore the scale of 1903, but decline to grant the yardage increase. The operators demand the equalization of conditions throughout the district and the adjustment of minor so-called irregularities in certain mines and localities. The increase will bear upon the screen coal run and the pick run of mine coal in equal manner. Under the 1903 scale, the payment for pick run of mine coal is 33 1-2 cents.

GREAT INCREASE FOR MUSCOGEE

Tax Returns Show Gain of Over a Million and a Half.

Columbus, Ga., August 9.—(Special.)—The tax returns for Muscogee county for the current year, which have just been consolidated by Tax Receiver J. H. Henderson, show an increase in values of $1,666,220 over the returns of 1905. This is a magnificent gain, and is a surprise to the most optimistic citizens, the general belief being that the increase in values would be about one million dollars this year. This increase breaks all records in the history of the county. It is due mainly to the wonderful industrial development in and round Columbus. In seven years' time taxable values in Muscogee county have increased $6,748,505, and are now nearly $20,000,000.

Saves Negro's Life.

Columbus, Ga., August 9.—(Special.)—Captain Wiley Williams, chief of police, has probably saved the life of Henry Trammell, colored, under arrest in Meriwether county, Georgia, on the charge of criminal assault. The crime was committed June 23, and on that date Trammell was in custody of the Columbus police, having been sentenced to sixty days on the chaingang. He was released June 24 on account of his being in bad health. When Trammell was arrested in Meriwether county he wrote a pathetic letter to Captain Williams, asking him to communicate with the Meriwether authorities at once.

To Advertise Columbus.

Columbus, Ga., August 9.—(Special.)—The contract for advertising the city of Columbus has been let to C. W. Lee & Co., of Newark, N. J. Forty-five hundred dollars is to be spent, this money having been raised by the city council, the board of trade and the Columbus Power Company. The publicity end of the advertising contract has been sublet to Parker & Lee, of New York. J. Wideman Lee, Jr., representing that firm, has been in Columbus this week collecting data. The national magazines and periodicals will be used in pushing the "Greater Columbus" movement.

Judge Russell to Speak.

Columbus, Ga., August 9.—(Special.)—Judge Richard B. Russell will make an address at the opera house in Columbus one night next week, probably next Tuesday night. At a meeting of his Muscogee county supporters last night the details of his reception were arranged.

COAL MINES ARE FLOODED.

McAlester, I. T., August 9.—Coal mines No. 9 and No. 10, at Coal Gate, owned by the Missouri, Kansas and Texas railroad, were flooded last night by a creek backing up, the result of recent heavy rains. Property valued at $2,000,000 is badly damaged and 600 men are out of employment.

Distillery Is Burned.

Columbus, Ga., August 9.—(Special.)—The distillery of W. C. Campbell, in Phenix City, Ala., was burned at 2 o'clock in the morning, the entire plant being destroyed, together with most of the contents. A number of barrels of whisky were saved. The loss was $3,000 and the insurance $2,000. It is thought that the fire was of incendiary origin.

RAIN OF COIN BLOCKS VIADUCT

Continued From Page One.

lice headquarters. A squad of wheel men had little effect. A miniature riot seemed possible, when a call was sent in for patrol wagons. The wagons were quickly upon the scene, and it was the apperance of these vehicles which induced the money givers in the building to cease their distribution. As it was, a score or more of the boys were placed in the wagons and sent down.

But the arrest of the boys, some of them lads of good appearance, boys with bright, clean faces and clothing, indicating good care and attention, changed the feelings of the men who had been watching the occurrence. Into a wagon with a negro boy a well dressed white lad was handed. This did not suit the gathering upon the sidewalks and a free expression of opinion by citizens resulted in cases being made against more than one Atlantan.

When the wagons reached police headquarters Chief Jennings instructed that the boys be released and that no cases be entered against them, the arrests having been made simply to disperse the gathering.

"Not for the world," remarked the chief, "would I give one of these lads even a thought of pain. It was a boyish frolic only with them, and in days gone by every man would have done the same. No, there is no charge against one of them."

"I played in luck," remarked one of the lads as the patrol wagon rolled away. "I was one of the first to catch a penny, and yet the cops didn't catch me. Maybe you wouldn't believe me if I told you that I gathered in mighty near three hundred cents. See."

And the lad rolled from his pockets into his hat a collection of coin, a half-dollar piece, showing large in the collection.

"Now, that geezer," said the lad fondling the fifty-cent piece, "got rich in his head right quick, and tossed away that half when maybe he needs it at home more 'an I needs it. Then there's a quarter, and four or five dimes. See? And all them jits. Just look at the pennies. I guess I got 'nough cops right there in that hat to empty every chewing gum box on Atlanta's street corners. Gee, but wouldn't I like to have one like it every day in the week. Say, if them cops wid Jennings in de lead hadn't cum up so sonn 'Id a' had a pocket full by this time. Say, what's Atlanta want wid cops, any how, when all Atlanta boys always go to Sunday school every day in the week? Say, can you tell us?"

One Man Was Arrested.

An interesting incident to the affair was the arrest of W. H. Johnson, a painter, who refused to obey the commands of the officers, "clear the way."

"Move on," said Call Officer Branen, addressing Johnson, who was standing in the center of the sidewalk in front of Pitt's cigar store. "I don't have to, for I am a tax payer," replied Johnson. "I can't help that, you move on, or I'll arrest you," said Officer Branen. Johnson answered that he would like to see him do it, and the arrest promptly occurred.

The crowd was again thrown into a fever, and a large number surrounded the officer, and several excited boys yelled to mob him. Despite the many protests that were made, the officer led his prisoner through the crowd. The arrest was the most exciting incident of the occasion, and many interested persons will attend this afternoon's session of police court to witness the outcome of the trial. At police station he was given a copy of charges.

MORRIS LODGED IN MACON JAIL

Negro Accused of Shooting Bloodworths Captured After Long Chase.

Constitution Bureau, 467 Second Street, Macon, Ga., August 9.—(Special.)—After more than a week of wild pursuit of what seemed to more than a dozen officers as direct clues regarding the negro, Joe Morris, who shot George E. Bloodworth and his wife at the supper table at their home at Brown's crossing nearly a month ago, Sheriff Wimberly and Deputy William Everett, of Twiggs county, landed him late last night and came to Macon with him this morning, after both officers and negro has been pursued for several miles by angry people bent on vengeance. Morris is now in a cell in Bibb county jail awaiting a hearing before the courts of Twiggs.

Morris denies the heinous crime with which he is charged. He stood dazed in his dark cell when faced by a newspaper man this morning and was seized with wonder at the specimen of white civilization. He was wild and half-crazed.

As soon as the report reached the ears of the people that Morris had been captured, large crowds started toward Jeffersonville to get a chance at him. Sheriff Wimberly, fearing the angered people, placed his prisoner on a train and brought him to Macon. Here no trouble is feared.

French Ambassador Invited.

Macon, Ga., August 9.—(Special.)—A message signed by Mrs. Robert E. Park, vice president general of the Daughters of the American Revolution, and Mrs. Edgar A. Ross, regent of the Nathaniel Macon chapter here, went to Ambassado. Jusserand, of France, at Washington, today asking him to visit Macon and deliver an address during the memorial to General Lafayette. The ladies of Macon are contemplating the coming of the French ambassador, and when the corner stone of the Lafayette memorial is laid he will be urged to speak to the people.

General interest has been manifested in this movement, and it will be made one of the features of the centennial celebration during the fair in October. Other exercises in connection with this celebration will be equally as interesting, and Macon will have one of the greatest public gatherings in its history on Fort Hawkins day, as arranged by the Daughters of the American Revolution.

Day of Prayer.

Macon, Ga., August 9.—(Special.)—Arrangements have been made among the friends of the Georgia Industrial home throughout the state for a day of prayer for this institution in the churches next Sunday. Manager J. R. Gunn has given considerable time to the matter of bringing this before the people, and much good will be done in the services which are to be devoted to the home.

Already the home is rapidly being taxed beyond its capacity and prayers are urged for means of enlarging so that all the needy children may be cared for. Funds are needed and pastors and superintendents throughout the state are urged to make the services helpful in earnest prayer for both funds and the best plans for the many children.

Small Price for Reserve.

Macon Ga., August —(special.)—Seven acres of the Macon land reserve were sold at public outcry this morning by City Marshal Chapman. The sale was at the instance of cotton buyers who failed to show up in the bidding. Herbert F. Haley, of the Coca-Cola Bottling works, made the only bid. This was $4,000. The right of rejecting this bid was reserved by the city council, and it will probably be turned down at the next meeting.

Snatch Thief Arrested.

Macon, Ga., August 9.—(Special.)—Charlie Singleton, a negro vegetable boy, entered the home of Mrs. C. L. Eddings, on Rembert avenue, this morning, and after selling part of his truck, turned to leave the home, grabbing up a purse from the table and rifling it. Mrs. Edding saw him, and as soon as the neighbors were informed a wild chase began. Call Officer Brannan was summoned from police station, and within a short time he lodged the boy in the barracks.

More New Cotton in Macon.

Macon, Ga., August 9.—(Special.)—A second bale of new cotton was placed in Willingham's cotton warehouse today. This was ginned in the southern portion of Houston county, the farmer's name being reserved from the public. As soon as it was turned into the hands of C. B. Willingham, one of Macon's most prosperous cotton dealers, it was marketed for 10 1-4 cents. The bale sold yesterday to W. A. Davis & Co. was raised by joint tenants F. Waters and A. Lundy, prosperous and energetic farmers living near Fitzgerald. H. H. James, of that place, delivered the cotton to Macon dealers. The bale brought 17 3-4 cents in Fitzgerald. The grade in both instances was American middling.

Busy on Mass Meeting.

Macon, Ga., August 9.—(Special.)—Alderman Jesse Hart and at least fifty leading citizens of Macon will be busy until the middle of next week making plans for the big mass meeting in the interest of the new terminal and union passenger station in Macon. A brass band and several leading speakers will be at the auditorium on this occasion, and the affair will be made a public one of general interest.

Macon is to put her best foot forward in this plan to express her eagerness for a new railroad station and union passenger depot, and uniform efforts will be made to get the city together in this movement. Wide interest is already being taken and hopes are growing, many of the good purposes of the railway officials having been heard.

Gambling Suspected.

Disclosures at police court this morning lead officials in Macon to believe the lid is off and that knights of the green cloth are again busy. Chief Conner is looking for evidence this afternoon in the hope of clearing up a charge of shooting in the city, which took place in a barroom overhead last night in Wall street. Oscar Harris is the man who was taken up and Frank Nelson was a witness, who didn't want to talk about the lid's being off. Officers believe that gambling ha sbeen going on for some time and there is an indication that the grand jury will have something to do at the coming session.

Wild Engine in Smash.

A negro fireman on a Southern switch engine let the big machine get away from him this afternoon in the vicinity of Willingham's furniture factory, and it dashed into several cars on a siding, demolishing two loaded with groceries.

There were several narrow escapes, the fireman jumping as soon as he realized that the engine was beyond his control. He had applied the steam too suddenly and thought there was no way of regaining control.

IN VAT OF ACID LAD LOSES LIFE

Augusta Boy Drowned in Acid Vat Flooded by Mistake.

Augusta, Ga., August 9.—(Special.)—Jack Widener, a 14-year-old employee of the Clearwater bleachery, near Augusta, met a terrible fate last night. The boy was employed in packing cloth in a large vat, in which the material is drenched with an acid. By mistake the vat was flooded before the boy was told to leave the tank. He was immersed in the acid and died in great agony.

CENTRAL STRIKE WILL END TODAY

All Demands of Strikers Have Been Granted.

Strike Has Been Very Quiet One, and When Strikers and Railroad Men Met, an Adjustment Was Amicably and Quickly Made.

Macon, Ga., August 9.—(Special.)—At a meeting of the striking carmen and inspectors of the Central railway here this afternoon in Lackey hall, South Macon, a committee representing the railroad was met and all terms of agreement were fixed so that the men will return to work tomorrow morning.

All the demands of the strikers were met and granted. The raise of wages in several instances from 2 1-2 to 5 cents per hour was agreed to, as also were the regulation of hours and the drafting of shop rules.

No more orderly or gentlemanly conduct was ever sustained by men who were dissatisfied with their wages. They have throughout the time remained away from the shops and sought other employment until a request was made by railway officials for a conference. All differences were quickly adjusted at this afternoon's meeting, and the men return satisfied with the results. This will send more than two hundred m enback to their posts of duty in Macon, Columbus and Atlanta for the Central alone.

LIFE IN DANGER, SAYS FIRE CHIEF

Peachtree Menace to Life and Property.

Chief Joyner Says Street Must Be Repaved at Once—Hugh T. Inman Talks About the Matter. Councilman Roberts Will Take a Hand.

The chief of the fire department says that, unless Peachtree street is paved at once, there will certainly occur some serious accident which may cause loss of property, if not of life. He says that the street is now and has been for some time unsafe for vehicles to drive over, and he fears some serious accident to his fire apparatus from a horse falling or a wagon or engine overturning.

This is the state of Atlanta's principal residence street. The fire chief has come out and declared that it is dangerous to drive upon; and yet the street is allowed to remain in this condition while there is some sort of wrangling over the material to be used in repaving the street.

"Yes, Peachtree street is in what I consider a dangerous condition," said Chief Joyner yesterday. "It is full of holes that can cause the overturning of a fire wagon or engine or the crippling of a horse. I never saw a public street more badly in need of repairs. Something ought to be done, and done at once, unless the city wishes to stand for a damage suit. I consider the street absolutely dangerous to life and property."

Will Hurry it Up.

Councilman Roberts, of the sixth ward, is doing all he can to hurry the matter up. He says he will see to it that at the next meeting of the city council some delinite action is taken.

In the meantime the finance committee must hold a meeting before council meets. Alderman Key has called attention to the fact that the finance committee held no meeting at all between the two last sessions of the council, and there was therefore no chance to bring up the Peachtree pavement before that committee. The petition of a majority of residents on Peachtree asking for a new pavement of asphalt was referred to the finance committee several weeks ago, and it has been stated that the money could be found; but the finance committee failed to hold another meeting.

Chairman Patterson will doubtless call the finance committee together next week, as council meets on Monday, August 20. The committee can make a report on the Peachtree pavement and then council can act and the aldermanic board can concur.

Says Asphalt Is Best.

Hugh T. Inman, who lives on Peachtree and who has recently served in council as chairman of the finance committee, says that the residents of Peachtree want asphalt pavement and no other.

"A few people who are interested may want bitulithic or wood block," says Mr. Inman, "but we who have looked closely into the matter and have ascertained the cost want asphalt. The street car company is willing to pay its proportion, which is one-third of the cost, for the repaving of the street with asphalt. The city engineer says that the present foundation of concrete can be used and that asphalt will be the best and, in the long run, the cheapest material to be used. Why not, then, go on and have the work done?"

Alderman Key, from the sixth ward; Councilman Taylor and Councilman Ellis, from the sixth, have stated that they will do all they can to have the Peachtree pavement put through as early as possible, and it is more than probable that the matter will be taken up by the finance committee next week and that council will act on it at its next meting.

SALOON TAX FOR GOOD ROADS.

Folk Plans Legislation for Benefit of Public Highways.

Stewartsville, Mo., August 9.—Governor Folk will ask the next general assemlby to pass a law by which the retail liquor interests will be taxed for the benefit of the public highways. He plans to have each dram shop pay a state license of $200 a year, the fund created to be used to build good roads, beginning with two great free highways across the state, one from Kansas City to St. Louis, the other from Iowa to the Arkansas line.

Other legislation to be asked for as outlined by the governor in his speech here yesterday includes giving the executive power to remove prosecuting attorneys and sheriffs for incompetency or corruption; creating the office of state excise commissioners, with power to revoke dram-shop licenses; refusing brewers and distillers the right to an interest in saloons; regulating the rates charged by public service corporations, and giving municipalities the power to purchase, own and operate public utilities.

PANAMA'S SOULS NUMBER 54,459

Isthmian Canal Authorities Take Census of Zone.

22,000 in Zone Proper—Only 3,264 White Americans on the Entire Strip of Land—One-Fifth That Number of Chinks.

Washington, August 9.—According to a census just taken by the isthmian canal authorities the population of the zone is 22,137. As the inhabitants of the zone are constantly moving it was impossible to enumerate all of them and it is estimated that the number missed is probably about 5,000, bringing the total up to 27,137. In addition to this the authorities point out there should be liberal allowance, probably 10 per cent, made for persons who live just outside the zone, but are employees of the commission and to all purposes are residents of the strip controlled by the United States. This allowance would bring the total up to almost 30,000.

A census showed the population of the city of Panama was 22,547. A census taken October 31, 1905, showed a population of 20,383. Of the adults in the city of Panama reached by enumeration in the last census, 7,049 were men, as against 6,410 women. Of the minors, 4,016 were males and 5,072 females.

Panama City Statistics.

In the city of Panama 15,111 of the inhabitants are natives of the Panama republic. Among other nationalities among the inhabitants in that city Jamaica ranks second with 1,877, Spain has 1,140, West Indies, except Jamaica and Porto Rico, 1,250; United States, 361; Colombia, 869; China, 708; Italy, 245.

Blacks outnumber the whites in all the settlements on the canal zone. At Culebra there are 677 whites, 3,966 blacks and 158 yellow persons, giving the town a population of 4,801. The census of Colon and Cristobal showed the actual population of the two cities to be 11,720. The census taken in April of this year shows that the total number of white Americans on the entire isthmus of Panama was 3,264. According to the latest census the entire population of the canal zone and of the cities of Panama, Colon and Cristobal, which are at the ends of the canal and a part of the canal zone to all purposes although they are under the Panama government, is 57,459.

BODY EXHUMED FOR INSPECTION

Thought Drowned Woman Met Foul Play, But No Evidence Is Found.

Columbia, S. C., August 9.—(Special.)—The sensation caused by the finding of the body of Mrs. Whit Hamilton in the well last Sunday, five days after the disappearance from her home near Dillon, did not end with her burial. Vague rumors of foul play were rife throughout this section and the inquest was postponed until things could assume some shape.

At the instance of a brother of the deceased and some of the jury, Coroner Lassiter ordered the grave opened yesterday afternoon and an autopsy held. Although it was one of the hottest days of the summer, a large motley crowd of men and boys, black and white, collected at the family burying grounds, many of them walking about two miles from Dillon, where the disinterment took place. The casket was removed from the grave and carried under a shade tree and opened.

Decomposition, however, had set in, obliterating all evidence, if there had been any, of violence.

Consequently, the jury had to fall back upon the prima facie evidence of suicidal drowning.

JACOBS' PHARMACY

GEORGIA BOYS IN CAMP MAKING GREAT RECORDS

Regular Officers Vary Usual Custom Enough to Say Pleasant Things of the Cracker Militia Now at Chickamauga.

By ALAN ROGERS,

Special War Correspondent.

CHICKAMAUGA, GA., August 9.—(Special.)—A hot sun beat down upon the encampming army of the Chickamauga, transforming the mud belonging to the red old hills of Georgia as a heritage of the recent rains to the dust of a great military reservation that rose in great clouds with every passing wagon train, batteries of artillery or regiments of regulars or state troops starting out upon or returning from some hyke against an imaginary enemy.

Now that the Georgia and South Carolina state troops have been in camp for several days, the hot sun following the rains which marked the arrival of the soldiers has tanned the faces of these volunteers until it is difficult to distinguish just where the khaki army blouse begins and the face and neck leave off. It would be a hard matter to find a body of troops so well seasoned in so short a time, and while the men have had plenty to do in meeting the requirements of this week of instruction in the arts of war, they have met these requirements in a way that has brought down on the heads of these Georgia boys encomium of praise from the officers of the regular army, who are here in great numbers. This is both important and true. And it is worthy of more than passing notice, for compassionately speaking, these regular officers are without bowers, and to win an encomium from such an exacting source is source for pardonable pride and material for editorial comment.

Men in Fine Spirits.

Another feature of this present camp is the spirits of the men. While there has been plenty of hard work to do, there has been little or no grumbling and the men of the Georgia troops have come whistling home to camp after 8 and 10 mile "hykes" as though they had been in training for months rather than days.

On one point all of the officers and men are agreed upon as a unit. That is that this present camp is without exception the finest and most satisfactory in every possible way in the experience of the oldest officer. And while there has been much hard work this week, the men have also been given plenty of time to rest, and there has been none of that fearful grind and grueling work with long marches and night "hykes" that characterized the "Third Battle of Manassas." It is also the opinion of the officers that the present camp has given both the rank and file a clearer insight and a better and more practical understanding of the arts of war than any other encampment.

There is very little of the pomp and panoply in the appearances of the many troops which now mark this famous and historical battlefield. Realism is to be found on every side and only the enemy is imaginary. It was most gratifying to the several Georgians who visited General Budd's headquarters and heard this commander discuss the situation with several assembled umpires and officers of the regular army. It is usually a far cry between such an assemblage and any compliments for troops other than those drilled fifty-two weeks in every year. But the Georgia troops proved just such an exception.

"I have been particularly delighted with the enthusiasm of these officers of the Georgia troops. Not only have they attended the many lectures of instruction and explanation of the day's maneuvers by the officers of the regular army, but they have been out at 4 o'clock in the morning familiarizing themselves with the coming work in hand."

"And the way their men have responded has been most exceptional." This last from an officer whom it would be most gratifying to quote except that the quoting of officers is not considered good form in army life. "I have been particularly impressed," continued this very high officer, "with both the personnel and the high spirits of these Georgia boys. As for their officers, they have not only carried out the orders of the day intelligently, but they have kept themselves informed of the movements of the opposing troops in a way that has surprised me." Such was the comment among those having authority in such matters. As for the camps of these Georgia troops, they have also been the subject of much compliment and they have made records for military housekeeping all their own.

Good Reports for Georgians.

There are very many limitations as to the prerogatives and privileges of the war correspondent of peace in a camp partaking of such realism as this present one, but this much can be stated authoritatively, and that is, that following the return of the last troops in camp and the breaking of camp will finally come the reports of the officers and umpires, who have charge of instruction. And when these reports are issued, those pertaining to the Georgia troops will read after a fashion such as must bring the pardonable blush to each and every citizen of the Empire State of the south. This is not pleasantry. It is fact, based absolutely and solely upon conversations held with those in a position of authority in such matters.

And it is a matter of record that the officers of the regular army do not talk one way and report another. They may say nothing rather than offend. But when they do speak in a complimentary fashion, it goes without saying that the reports will coincide with such comment, for these officers do not speak carelessly regarding such matters. For all of which reasons the final reports of the government regarding this present encampment are matters that may be eagerly awaited by all Georgians, and especially those among the state troops, and with no fear as to the final outcome. It is not saying too much to state that even something exceptional may be expected from the reports in reference to the conduct, efficiency, appearances and work done by these Georgians in uniform.

Very easy it would be to write columns of descriptions, and cover up or avoid all comment as to the feeling of these regular officers in regard to the Georgia troops, but every word of the above is based on authority and experience secured from the highest officials—not one or two, but many.

Strategically, sanitarily and picturesquely speaking, the Fifth Georgia, Colonel Clifford L. Anderson, have the best of the situation. Encamped on the slopes of Snodgrass Hill, it is possible that both the mud and dust are red from other than geological reasons, for at this very point was fought one of the most terrific engagements during the entire war between the states. Colonel Anderson was found, and was most enthusiastic regarding the camp, his men and the results which have been obtained this week. His every word was heartily seconded by Major E. E. Pomeroy, commanding the first batallion, composed of the Atlanta troops, which have especially distinguished themselves. Both officers insisted that both the camp and the instruction were much the best in all their long experience.

Neat Company Streets.

The First regiment, of Savannah, Colonel Obear, and the Second regiment, Colonel Harris, with troops from Macon and the central section of the state, are encamped across a military road, just opposite the position of that occupied by the Fifth. The company streets of all of the regiments invited the pleasantest kind of comment from the most exacting, the positions being such as permitted of drains which meant much to the comfort of the troops during the first days of wet grounds and rainy weather.

From Major Duncan, in command of the hospital corps, the health of the men of the Fifth was reported not only excellent, but exceptional. Not a case has been held for more than twenty-four hours. Regimental Quartermaster Captain Nunnemacher has been giving the men of the Fifth the rations of the regular army, and they do not issue ice cream, lobster a la Newburgh and bonbons in the regular army. But the men are looking as fit as possible, and as hardy as veterans.

Some distance beyond the encampment of the Georgia troops is that of the Seventeenth United States infantry, Colonel Van Orsdale, which distinguished itself by a march of 200 miles in fourteen days with rain falling during ten of these days. This regiment also gives ample excuse for pardonable pride on the part of every Atlantan and has proved an important factor in the instruction of the state troops. This regiment is deserving of special attention—but that, as the greatest of all living military writers would say, is quite another story.

The coming of Governor Heyward of South Carolina, was responsible for extra noise and enthusiasm on the part of the Unlmetto boys. As for the Georgia troops, they are looking forward with great interest to the coming of Governor Terrell. As this federal reservation lies within the state of Georgia, the chief executive of this state must be received with the proper military salute. It is expected that a grand review of the state troops will mark a part of the programme attending his visit.

It is night. The campfires are blazing on the hills in every direction. There is the quiet which is only found in the bivouac of an army. Again and again the sound of singing comes from the company streets of distant regiments. And then the bugles sound "taps."

And save for here and there the challenge of a sentry, there is the silence of a sleeping army.

MORPHINE VICTIM IS DEAD.

Guy Branch Dies at Grady Hospital, Where He Was Taken on Wednesday Night.

Guy Branch, the young man that was found by county officers in an unconscious condition late Wednesday afternoon on Goat island, in the Chattahoochee river, near the intersection of Peachtree creek, died yesterday morning at 7 o'clock at the Grady hospital from the effects of morphine poisoning.

The man was addicted to the habit of using the drug, and owing to this fact his wife had been forced to separate from him. Wednesday morning Branch wrote her a letter, endeavoring to effect a reconciliation. His wife emphatically refused, and it is thought that the man immediately went to a drug store where he purchased a sufficient quantity of the drug to cause his death, and then went to the river.

Besides a wife, Branch leaves a father and mother, Mr. and Mrs. Samuel R. Branch, 143 Walker street, and an infant daughter.

The coroner will hold an investigation today at H. M. Patterson & Son's undertaking establishment. Funeral arrangements will be announced later.

POLICE COURT LESSONS BY COUNCILMAN MARTIN

WHEN Councilman E. W. Martin, of the second ward, issued the following proclamation in the police court, over which he presided with signal ability yesterday morning, he caused all of Darktown to gap with wonder:

"You benighted people," he said, "are not punished in this court in harshness, but in kindness. We do not fine you just to get your money, or make you work on the streets, but to teach you a lesson and make you better men and women."

The acting recorder was talking to one George Oaks, a police court veteran, who was arraigned for being drunk on cocaine and for contempt of court. Oaks was fined $15 in one case and $3 in the other. This came on top of the lecture of kindness, and George winked his eye at the reporters and remarked sotto voce:

"I wonder what he would have done if he hadn't had his kind clothes on him."

Every time Councilman Martin fined a prisoner he added the alternative of so many days in the chaingang, which made the sentence very impressive.

Being a good lawyer, it was very little trouble for the councilman from the second to run the court, and he did it with ease, and in a manner that was perfectly equitable between the "state and the accused."

She Had the Strap.

The first case for the councilman from the second to consider was that of Ferman Jones, a negro boy, who had been throwing rocks. Ferman's proud but distressed mamma was in court with a strap and she announced that if the acting recorder would turn the boy over to her for "a pa'r ob minutes," she would "ta'r de hide offern him."

She was told to take the boy and "ta'r," and the case was dismissed.

"I believe I can see the feathers on his back now," remarked the acting recorder when old George Moreland, a notorious negro chicken thief, made his appearance.

The arresting officer stated that George was caught out the night before at 3 o'clock with an empty sack. The old negro was dismissed from the penitentiary only a month ago.

"I reckon we will have to give the chickens a rest for at least a month," said Councilman Martin, and he sentenced George to the city chaingang for 30 days.

"I 'clar Ise gittin' so dat I mos hates ter see er chicken," muttered the old negro as the court bailiff led him away.

He Had 'Em Stood.

"Us all mos' skeered ter deaf," exclaimed a crowd of Darktown negroes in chorus when Anderson Holmes, a cabman, was brought out.

"Us am skeered disser nigger am gwine to kill us," they continued.

Anderson Holmes hid his face behind his hat, and chuckled, as he muttered to himself:

"Dat's er big crowd ob mokes ter be skeart of one leetle man lak me."

Councilman Martin sized up the crowd and sized up Anderson Holmes, who is a small bowlegged negro, and he agreed with the prisoner.

"I don't see much in this case," said the acting recorder. "You big buck negroes ought not to be afraid of a little negro like this. I will dismiss the case, and if you all are still afraid you can take out a peace warrant."

"Us sho am gwine to do dat," exclaimed the chorus as they withdrew to seek a justice of the peace.

E. W. MARTIN,
Councilman Second Ward, Who Presided in the Police Court Yesterday.

Had the Steam Shut Off.

Just then the steam in the street car plant behind the police barracks was let off, and there arose such a noise that the acting recorder could not hear the false oaths of Darktown. He stopped the court, and had an officer to go to the engineer at the plant and notify him if he didn't stop the noise he would be fined for contempt of court. The steam was quickly shut off.

Jim Brown, a negro, who has been delivering candy for Nunnally's factory, was arraigned for failing to make the proper C. O. D. returns.

Made "Candid" Confession.

"I has ter remit", stated Brown, "dat I tuk out de candy and got de money, and den nebber handed hit ober ter de proper pusson."

"You have been guilty of larceny after trust," the acting recorder told him, "and I will hold you in a bond of $200 for the state courts. In owning up that you took the candy and did not hand in the money you have made a very candid confession."

After disposing of a few ordinary every day drunks, the acting recorder adjourned court and picked up his hat and umbrella.

"A heap of good can be done in this court," he remarked, "and I believe Recorder Broyles is doing it. Knowing how to deal with these creatures is a great problem, and I hope I have not been too harsh, and at the same time not too lenient. A happy medium in this place is a consummation most devoutly to be wished."

Pittsburg Sympathy Strike Spreads.

Pittsburg, August 9.—A sympathetic strike movement inaugurated ten days ago by the Pittsburg branch of the structural trades alliance to aid the carpenters and against the employment of non-union men, has spread to a number of large building operations, and work has been suspended on the Carnegie institute, Duquesne power plant, Philadelphia Company building and Mercy hospital extension. The sympathy strike compacincludes all the building trades but bricklayers and plasters.

WRANGLE OVER SUPE ELECTION

Police Board May Get Itself Into Another Deadlock.

Will the city be given the needed police protection by the election of more supernumeraries next Tuesday night or will the police board wrangle over civil service to prevent the elections?

That is the question which will present itself when the police board meets next Tuesday evening.

Chief Jennings says that more supes are necessary in order to give the city the full protection it needs and which it can have under the present appropriation.

It is said that each watch is now going out short because there are not enough supes to fill the places of the regulars who are absent. The limited number of supes and the vacancies on the force keep the supes working regularly all the time and when a vacancy occurs from a regular being sick or otherwise absent the place cannot be filled and the watch goes out short.

That means that the city is not getting the full police protection to which it is entitled.

The police board stands four and four on civil service. That is four members say there is civil service in the department, while four say there is no civil service.

If supes are elected next Tuesday they will have to be either chosen under civil service rules or not under such rules. It will not be possible for the eight members of the board to elect supes unless somebody gives in on one side or the other.

The matter is assuming a very interesting status and the outcome will be watched with no little interest by all who want to see the force out of the wrangling and enough policemen elected to give the protection to which the people and the city are justly entitled.

Turks Attack Bulgarians.

ATLANTA, GA., August 10, 1906.

Maybe, after all, Wall street will conclude to dictate the presidential nomination of Secretary Shaw.

Many heat prostrations are reported daily in eastern cities—something entirely unheard of in Atlanta.

The czar is said to be leaning to the side of liberalism again. Mentally the czar is a pendulum.

San Francisco has so far resumed her normal condition that labor strikes are of almost daily occurrence.

There is a growing public conviction that Anthony Comstock is worse than the things he suppresses.

A Kansas girl sent a dollar to a Chicago advertiser for "a sure preventive for chigger bites," and received a reply, "Keep of the grass."

It is said Mr. Rockefeller returned from Europe with a severe cough. Chicago university is doubtless sitting up taking notice.

The mayor and aldermen of Havana, Cuba, were ousted for graft. We imagine an American would feel perfectly at home in Cuba's metropolis.

The fellow who was fatally shot in the stomach at that recent North Carolina lynching was referred to in the dispatch as "an interested spectator."

Georgia expects every Simon-pure democrat to do his duty on the 22d, by voting against the anti-democratic political combination, which seeks the overthrow of the democratic party.

Secretary Shaw was soundly hissed and otherwise humiliated in the recent Iowa state republican convention. There seems to be nothing left for Uncle Weslie but to retire to Wall street.

The Iowa democratic state convention adopted a resolution pledging to William Jennings Bryan the support of Iowa democrats for the presidency in 1908. This thing is beginning to look like acclamation.

A member of a revolver manufacturing firm in New England recently died, leaving a fortune of $30,000,000. We are a pistol-toting people here in this land of the free and home of the brave, and our homicide statistics show it.

This is pretty good for British humor. The London Sketch says: "Humorists frequently have sad faces, but humorists are not sad because they are humorists. They are humorists because they are sad. Humor is born of acute sympathy."

Explorer Senn says he has conversed with monkeys that showed almost human intelligence. Doubtless, too, in his explorations in the human jungle Explorer Senn has conversed with people who showed almost monkey intelligence.

Doubtless it will fill some of our northern friends with incredulous surprise to be told that very many people in Atlanta and vicinity sleep under wool blankets all summer, but it is a fact all the same. It is great nights we have to sleep here on thin altitudinous and ozony Piedmont plateau.

Work on the cape to Cairo railway is progressing steadily, and on wide stretches of the line the rails are being laid at the rate of a mile a day. The road is completed 2,016 miles north of the cape. From 3,000 to 5,000 natives are constantly employed, and about 350 whites. This was the late Cecil Rhodes' pet project.

Typhoid fever has been called "the preventable disease." An ounce of prevention is worth a pound of cure. Now is the time to take all necessary precautions by cleaning up your premises, cutting the weeds, disinfecting and seeing that your water supply is pure. And another very necessary precaution is to keep the house clear of flies.

A contemporary that is evidently familiar with a famous agricultural product of Georgia says: "The only absolutely sure way to get a good melon is to go at midnight along a rough country road to the patch, dodge a bulldog and a double-barreled shotgun, and select then and there and quickly the largest melon you can find. It will taste so good that the next night you would face a dog show and a small army to get its mate."

HAS THE HEART GONE OUT OF IT?

Has the heart been taken out of the Hoke Smith campaign by the multitude of "COME BACK!" calls that are pouring in upon the Divinely Called?

They are pouring in, all right enough. From one end of the state to the other, the cry of the faithful is: "COME BACK, HOKE!"

"COME BACK!" and save this county and that and the other that has been pictured as "solid;" this county and that and the other that has been "carried" time and again—and then again; this county and that and the other where panic has seized upon the followers of the little gang of mud-throwers who have been busily engaged in the pleasant pastime of "plastering" the democratic party, all democratic officials, everybody whose ears had failed to hear the DIVINE CALL.

"Campaign WORK" the Organ now calls it—and WORK it surely is.

No time to say a word or do a thing in behalf of little DISFRANCHISEMENT BILL, that Hoke Smith foundling over at the capitol. What if this failure to help little DISFRANCHISEMENT BILL does lay bare the hypocrisy of the Divinely Called who is going about the state declaring himself for "disfranchisement" at some time in the dim and distant future! No time to stop and put through that same "disfranchisement" NOW.

WORK? Well rather! But evidently VERY NECESSARY WORK.

What has become of that noisome cry against the democratic state committee for its "unfairness" in making provision for a DEMOCRATIC PRIMARY?

Too busy for THAT, too?

Or can it be that Hoke and the Hoke Organ have at last discovered the inconsistency of that cry now they are claiming Tom Watson has a right to vote in that primary? For certainly if the rules and regulations provided by the committee do not bar out Tom Watson, THE BITTEREST ENEMY OF DEMOCRACY, then they bar nobody out AND NOBODY IS HURT BY THEM.

And what has become of that stream of abuse that was to be turned loose upon any and every democrat who dared raise his voice in behalf of the democratic party and against the "disfranchisement" fetich?

Under the stimulating encouragement of a few aspiring politicians in a single county of the fourth congressional district, that stream was turned against Congressman Adamson, when HE, at a DEMOCRATIC convention in accepting a DEMOCRATIC nomination dared raise his voice in behalf of the DEMOCRATIC party.

But that was in the halcyon period before the REAL work of this campaign began, AND BEFORE THE "COME BACK!" CALLS BEGAN POURING IN.

How is it now?

Surely the heart HAS gone out of it. For now comes Congressman Brantley, after HE has been unanimously renominated as Congressman Adamson was, and—NOTHING TO SAY!

Congressman Brantley punctures the "disfranchisement" scheme, showing the people of Georgia that as proposed by Hoke Smith it is not only dangerous but fraudulent. Congressman Brantley dares give his word to the people of his district—and no man's word is better—that democracy has spelled Honesty and Efficiency in Georgia, and that the DEMOCRATIC PARTY IS ALL RIGHT! And Congressman Brantley goes even further than did Congressman Adamson, for he holds the Hoke Organ up to the scorn of the people BY NAME.

"Listen to this," said Congressman Brantley, holding before his audience at Offerman a piece of paper. And he read as bitter a screed against the democratic party as Tom Watson ever penned. Perhaps Tom penned THIS one; who knows! For—

"From what paper?" came a voice from the crowd.

"From The Atlanta Journal of a week ago last Sunday," Mr. Brantley replied. "Think of it! 'A political ring for twenty-five years intrenched in Georgia'! 'Diabolical'—that's the word used! This is given as a reason and argument why one candidate should be elected governor. If a majority of the people want him for governor—why all right; BUT I DON'T WANT HIM OR ANY OTHER MAN ELEVATED TO THAT HIGH POSITION ON THE CHARGE THAT A 'RING' HAS HAD THE PEOPLE OF GEORGIA BY THE THROAT! THE RING REFERRED TO IS THE DEMOCRATIC PARTY OF GEORGIA!"

And yet—not a word of censure, not a drop of that vitriol, for Congressman Brantley!

WHY?

The reason shows on the surface. The HEART HAS GONE OUT of the Hoke Smith campaign, FOR HOKE AND THE ORGAN ARE HEARING FROM THE PEOPLE!

TOM WATSON ON WILLIAM JENNINGS BRYAN.

At Thomson Tom Watson made prediction that William Jennings Bryan would lead the democratic hosts in the presidential contest of 1908. This prediction was eagerly seized upon by Hoke Smith and his satellites as Tom's PLEDGE to support Mr. Bryan and as evidence of Watson's DEMOCRACY.

What Watson HIMSELF says of his political attitude, what he says of the party TO WHICH HE BELONGS, is summed up in the two words which run all through his editorial utterances in the current issue of his Magazine—"WE POPULISTS!" No back-number cry is this; it is served piping hot in the current issue, that which has just been put upon the news stands, the issue of AUGUST IN THE YEAR OF OUR LORD 1906—the issue of TODAY!

Mr. Watson makes no pretense at being a DEMOCRAT, no pretense at being even a TEMPORARY DEMOCRAT. Does he make pretense of being a friend of Bryan?

Hoke Smith is crying out in all of his "COME BACK!" speeches that "WATSON IS A FRIEND OF BRYAN!" and upon this claim—which, to do him justice, Watson himself has never made—SMITH is asserting Watson's democracy.

Is Watson a FRIEND of the late Arthur Sewall, who, in 1896, was given the vice presidential nomination Watson himself wanted? Ask him and note the froth that surrounds his expansive mouth. Is Watson a FRIEND of Grover Cleveland? Look out—he'll bite you!

Yet here is what he says about Bryan, not what he said some time ago, but what he says NOW:

> "NOW (his OWN italics) Bryan himself is just as good a Sewall as any Eastern Democrat could want. When such men as Vilas of Wisconsin, Jones of Arkansas, Francis of Missouri, and Richard Croker of Tammany Hall rush to the support of Bryan, as they are now doing, it proves that Bryan has now become 'safe and sane' and CAN NOW TAKE SOUP THROUGH THE SAME QUILL WITH GROVER CLEVELAND!"

What becomes of the claim of Watson's DEMOCRACY, based as it is solely on his "friendship" for Bryan, in the face of such utterances as this? Not PAST utterances, bear in mind, but PRESENT utterances—words written NOW.

But that is not all.

Watson loves to prate about patriotism. "WE POPULISTS are sincere in our professions of PATRIOTISM"—it is one of his stock phrases. One of his readers wants to know:

> "Were W. J. Bryan's actions during the last national campaign in YOUR opinion those of a patriot or a politician?"

Watson gives HIS opinion—hot from the crucible. Here it is:

> "THAT OF A POLITICIAN!"

And here is his reasoning:

> "Any man who could denounce Parker as Bryan did immediately before the nomination, and then advocate him as he did immediately after the nomination is a POLITICIAN. Parker had not changed. Parker was just as good and just as bad as before. The nomination did not change Parker. It changed Bryan. Slapped in the face with that gold telegram, the diplomatic Bryan made his calculations, recanted his professions, and proclaimed Parker the 'Moses of Democracy'."

Any "friendship" for Bryan in this LATEST utterance from Watson? The DEMOCRATS of Georgia who believe in Mr. Bryan today as they have ever believed in him can judge for themselves. We might give our own opinion on this subject, but there is something else that interests us more just now, and that is:

WHERE DOES THIS EXPOSITION OF MR. WATSON'S IDEAS OF POLITICAL ETHICS LEAVE MR. WATSON?

"Through all these bitter years" Tom Watson has lost no possible opportunity to pour forth his vials of vitriol upon Grover Cleveland and HOKE SMITH and all those directly or indirectly involved in what he has so graphically pictured as "that midnight bond steal!" No man in America has been more often held up to fine scorn by Watson than this same HOKE SMITH, unless it was Grover Cleveland. It was but yesterday, when HOKE SMITH was eagerly hunting a job under Parker (soliciting aid from "Hamp" McWhorter and "Enoch" Callaway), that Tom was dividing his time between sneering at Parker and ridiculing HOKE SMITH. Hoke was then "the tool of Belmont"; Hoke was then "emissary from Wall street"; Hoke was then—what wasn't Hoke THEN?

THEN Hoke was everything to be despised. What is Hoke NOW?

Hoke will say HE has not changed. Where, then, does this leave Tom Watson?

Measured by his own standard of political ethics, as applied to Mr. Bryan, IS WATSON A PATRIOT OR IS HE A POLITICIAN?

Cheap Water Rates for Macon.

The business men and commercial interests of Macon should get squarely behind the project to utilize the cheap transportation opportunities afforded by the Ocmulgee river and should proceed, without unnecessary delay, to build the proposed "fleet" of light draught steamboats to ply that stream between the Central City and the port of Brunswick.

This is a common-sense business proposition and the enterprising people of Macon should do everything in their power to utilize such a commerce-developing opportunity.

Recently one steamer was put in commission on the Ocmulgee as an experiment, with the result that on her third trip between Macon and Brunswick she was offered more freight than she could possibly load on her decks. It is now proposed to build enough other steamers like this one to take care of all the freight that will be offered at these two cities and intermediate points.

The business men of Macon should and doubtless will, appreciate the advantage to them afforded by the water route and the low water rates; and with increased facilities of transportation the traffic by the new route will multiply at a remarkable rate.

This project involves much for Macon commercially. It not only means a low water freight rate, but actual competition with the railroads that have heretofore handled this freight traffic; and it must follow that the new competition will result in cheaper rail freight rates for Macon and other places between there and Brunswick. Water transportation is the one factor that always reduces railroad freight rates, and Macon is to be congratulated that nature has provided her with a means of reaching tidewater otherwise than by rail. It needs only enterprise and pluck, such as is being exhibited by Macon's business men, to establish a condition of actual competition between the river and the railroad, and that Macon will profit greatly by obtaining actually competitive freight rates is self-evident.

With the actuality of business upon the Ocmulgee thus assured, there can be no doubt but that river will be given special consideration in the federal appropriations for the rivers of this state, and with government aid to anything like the extent it would be given a similarly meritorious river at the north, the Ocmulgee can be developed into the great highway of commerce that nature has prepared it to be.

And that will be of immense value, not only to Macon but to the rest of the state.

LETTERS FROM THE PEOPLE

Maddox for Appellate Court.

Editor Constitution—While a number of names have been suggested for judges of the new court of appeals, permit me to suggest the name of one of Georgia's most illustrous sons—Hon. John W. Maddox, of Rome. Judge Maddox's name is a household word through the length and breadth of the state. His services on the bench and in congress have endeared him to the hearts of all Georgians. Able, upright, incorruptible—he stands, like Saul, head and shoulders above his fellows. His recent election as mayor of Rome by an overwhelming majority, shows the esteem in which he is held by his own people. His work as mayor for the past few months has been wonderful indeed.

Judge Maddox would adorn the bench of the court of appeals. He would bring to the work large judicial experience, a keen, analytical mind, ripe judgment and unswerving integrity. Indeed, he would be the ideal judge. North Georgia is certainly entitled to one of these three judgeships. ..orth Georgia nominates her favorite son—Judge John W. Maddox. Let us make his nomination unanimous! LAWYER.

Rome, Ga., August 9.

Wright, Hines, Watson!

(Thomson Dispatch to Macon Telegraph.)

Thomson is still the storm center. A circular is out announcing that Seab Wright, Judge Hines and Thomas E. Watson will speak at Thomson on Saturday. The circular says "the reckless methods of the corporation ringsters will be shown up." Hot stuff on the market.

It may be hot like it was in 1892, when Watson was the Moses of a motley crowd, and it may be hot like 1896, when Seab was the star orator. Seab was the hot-air orator that poured it into W. Y. Atkinson and the democratic party in 1896. Seab was nominee of a convention in which negroes took part as delegates, and his nomination was seconded by a negro delegate. Walton, the negro from Richmond, was a prominent actor.

"Eph White," a negro preacher, was also a big man in some of those conventions. Standing for purity of the ballot and equal rights. "Eph" was also elected a member of the populist state committee from the state at large—special honor. Mr. Watson was so enthusiastic in his cause at that time that he arose and said: "I second the nomination of this colored man to be on the executive committee of this or any other party from the state at large."

Mr. Watson has cut out a large job for himself and aids—to drive the democratic party from control in Georgia.

The fusion party in store for us when the "opportunity" comes, after "disfranchisement" does not lure thinking men. Conditions in Georgia are for a superior politically and otherwise to those of North Carolina.

Mr. Watson's declaration as to the negro Ephriham White, "worthy to be on the executive committee of any party," is in contrast with Mr. Hardwick's view of the democratic executive committee of the state. For Mr. Hardwick, estimating the "worth" of our committee, in his Thomso speech of the 28th, said: "That we have a white primary this year, open to all whites, is not due to the state democratic executive committee, but to the aroused sentient of the people who will not be tricked by SUCH CATTLE as compose the democratic committee of the state of Georgia."

GOOD WORK FOR RAILROADS DONE BY HOWARD THOMPSON

HOWARD THOMPSON, of Gainesville, who today is posing as the advocate of the Hoke Smith brand of reform, has himself somewhat of an interesting railroad record which some of the people who know him may have forgotten.

In 1902 Mr. Thompson, who now says he favors Hoke Smith because the latter stands for the people as against the railroads, was the arbitrator representing the Southern railroad when its tax returns were rejected in toto by Comptroller General W. A. Wright. On this board the then Railroad Commissioner Spencer R. Atkinson represented the state and John J. Strickland was umpire.

Comptroller General Wright then rejected the returns of the Southern railway on all of its properties. The rejection included the returns made on the Atlanta and Charlotte Air Line division, the Chattanooga and Brunswick line, the Georgia Pacific, the Alabama division, the Charlotte, Columbia and Augusta, the Rome and Decatur, the South Carolina and Georgia, the Atlanta and Florida, the Georgia Midland, the Alabama Great Southern, and the returns also on engines and first and second-class passenger coaches.

Only the returns of physical property were involved, the franchise tax act not having then passed.

Mr. Thompson and Judge Atkinson, it is stated, in the return finally made were unable to agree on the valuation of these properties, so the matter was left to the arbitrator, Mr. Strickland, who increased the valution of the Atlanta and Charlotte Air Line division from $13,000 to $16,000 a mile, and provided that the returns on all the other property should stand as made by the Southern railway.

It is naturally to be presumed that the umpire's action represented, in a measure, a compromise between the views of the arbitrator for the state and the arbitrator for the railroad. Such is usually the case in all arbitrations.

It would seem therefore that Mr. Thompson was hardly so much in favor of the pedple as he now pretends, especially since he opposed any increase in the returns made by the Southern at that time.

For this service Mr. Thompson was paid $500 by the Southern railway.

The valuation of the Atlanta and Charlotte Air Line today on physical property is $18,000 per mile, and with the franchise the total valuation of that line today is over $25,000 per mile.

But this is not all of Mr. Thompson's interesting railroad record. Having served the Southern so well it is not unnatural that the Seaboard Air Line should have sought his services the year following.

This time, in 1903, Mr. Thompson appears on the scene as umpire. It was the first year that the franchise tax came into operation. In 1903 Comptroller General Wright assessed the franchise of the Seaboard Air Line at $3,997,991. The Seaboard declined to abide by the assessment. The return of the tangible property was accepted.

Judge Spencer R. Atkinson, railroad commissioner, was appointed on the part of the state, Robert C. Alston, attorney, was named to represent the Seaboard Air Line, and Mr. Thompson was chosen umpire.

Here again the arbitrators were unable to agree and Mr. Thompson himself fixed the valuation of the Seaboard's franchise at $1,250,000, or less than one-third of the comptroller general's assessment. Was this another evidence of his desire to serve the people?

Upon the award of the arbitrators in this case appears the following:

"This avowal is made by the umpire, with whom Mr. Alston concurs. Arbitrator Atkinson dissents upon the ground that the sum awarded is inadequate, but joins in making the award deferring to the opinion of the attorney general this day filed, that all arbitrators must unite in making the award."

Here again Mr. Thompson was found well in line with the railroad representative.

The valuation of the Seaboard's franchise today as fixed by arbitration in 1905 is $1,500,000. This was made last year following an assessment of $1,987,347 by the comptrailer general, who sought to equalize the franchise valuations of all the railroads of the state.

STATE GOSSIP CAUGHT IN CAPITOL CORRIDORS

THE special house committee appointed Wednesday to investigate the circumstances attending the personal difficulty which took place Wednesday morning on the floor of the house between Dr. Whitley, the member from Douglas, and Solicitor General Charles D. Hill, of Atlanta, had filed no report up to the adjournment of the house yesterday afternoon.

The committee was appointed shortly after the occurrence by Speaker Slaton, and it consists of Mr. Flynt of Spalding, Mr. Davis of Burke, Mr. McMullan, of Hart, Mr. Holder of Jackson, and Mr. Lawrence of Chatham. The committee oragnized Wednesday afternoon, but has held no other formal meeting.

Having the private pension calendar before it yesterday afternoon, the house settled itself down to having such enjoyment as it could.

Several gentlemen who had not before presided over the house in the committee of the whole, in which all appropriations are considered, were designated by Speaker Slaton to preside, and these received a royal welcome at the hands of their friends.

Mr. Arnold of Monroe proved himself a veritable Czar Reed as a presiding officer, his rulings being announced in a peremptory voice reinforced by a tremendous stroke of the gavel.

He took the chair with such a broad smile upon his countenance that the house responded with cheers.

"Mr. Speaker," cried Mr. Hall of Bibb, "I wish to say—"

"Sit down," said the chairman. "You talk too much, and you always talk about the same thing."

Mr. Felder of Bibb rose to a point of order, but the chair was about to announce a vote, and he was ordered to resume his seat.

The two gentlemen from Bibb joined as heartily in the laughter as did the other members at this impromptu recreation.

Governor Terrell yesterday issued a requisition on the governor of Texas for Eugene Shockley, convicted in the courts of Rome, Ga., for assault upon Robert Manry with intent to murder.

Shockley, who is 23 years of age, appealed his case to the supreme court and gave bond for his release. The verdict of the inferior court was affirmed, and Shockley skipped. He has been arrested in Fort Worth.

It is well for county executive committees over the state who mail letters to the state house officials asking for assessments with which to defray a portion of the tickets gotten out for the approaching general state election, to know that the officials at the capitol have paid all necessary assessments to Chairman Yeomans, of the state executive committee. He is daily mailing blank ballots to the chairmen of the county executive committees.

State Treasurer Park yesterday sent back the certificate of the ordinary of Bryan county asking for his county's pro rata share of the common school fund arising from convict hire. The certificate was not endorsed by the grand jury. This is required. Nothing has yet been heard from Baker county as to whether she wishes her snare of the fund or the convicts.

A meeting of the state pardon board will be held Tuesday. About forty or fifty cases will come before the committee.

Comptroller Wright believes that he will be troubled with the Seaboard Air Line railroad in an arbitration as result of the road's failure to increase its returns. A few weeks ago he turned down the returns of the road and increased them considerably. They have never replied definitely. Comptroller Wright is inclined to believe that this means arbitration.

The railroad commission yesterday decided that the freight and passenger rates of the Atlanta and Northern Electric Railway Company are under its jurisdiction. The rates are the same as those of the steam roads which run to Marietta from Atlanta. A delegation of citizens appeared before the commission to advocate small depots along the line of route.

Representative Hill has secured a decision from the supreme court which will have a bearing on cases that may come out of several of the new counties created.

The decision declares that whisky orders taken over telephone from a "dry" county, the receiver being in another county, is not soliciting business. It also declares that a person cannot be convicted of selling whisky in "dry" counties without licenses, as whisky licenses are not issued, and if guilty of any offense at all the defendant would have violated the local option law. It is also decreed in the decision that Crisp county is "dry" because it was carved out of a dry county, Dooly, and will remain thus until the voters see fit to do otherwise.

The whole case is based on the following facts: One Moore, who does a whisky business in Coney, Sumter county, paid for whisky orders from Cordele over telephone. He was convicted of selling whisky in Crisp county without a license. Attorney Hill demurred the indictment in the contehtions set forth and affirmed by the supreme court. The superior court refused to entertain his demurrers and he carried up the case.

Hon. Minter Wimberly, city attorney of Macon, was at the state house yesterday.

The senate educational committee has reported adversely on the Steed house bill allowing election of county school commissioners by the people.

Secretary of State Cook yesterday allowed the Bank of Carrollton to increase its capital from $50,000 to $75,000.

Judge Fred Foster, of Madison, and raconteur of national fame, was about the state house yesterday. He is a candidate for the court of appeals. Another ermine wearer after one of the offices, and who paid State Treasurer Park a call yesterday was Judge Priffitt, of the Elberton city court.

State Entomologist Smith has returned from Macon, where he addressed the state horticulturist society on the work of his department Tuesday.

CIGARETTE BILL DISCUSSED.

Measure Was at Last Referred by Senate Committee to a Subcommittee.

The anti-cigarette bill was before the general judiciary committee of the senate yesterday afternoon, and after a consideration the bill was referred to a subcommittee, composed of Senators Chandler, Sttel and Rose.

The point brought up and to be decided on by the subcommittee is whether or not the bill is in interference with the interstate commerce law, which permits the sending of a package from one state to another, which can be used by the recipient, but cannot be given out or sold to a third person.

The subcommittee will report Monday afternoon.

The bill of Senator McHenry to allow the movement on Sunday of freight cars containing stock, fruit or vegetables, passed favorably.

WHERE WILL SHUBERTS FIND LOCAL THEATER?

Mystery Involves Location of House To Be Used for Attractions Channing Polloch Promises Atlanta.

It is promised by no less a personage that Channing Pollock that the Shubert attractions, including many of the most notable artists in this country, are coming to Atlanta this approaching season, but the question holding the attention of Atlantans just as present is where will these attractions hold forth when they do come to Atlanta?

The question seems a much mooted and tangled one. Owing to existing conditions generally understood, it is hardly to be expected that the Shuberts will house their attractions at the Grand opera house. Such a move would be too inconsistent to be considered seriously according to all of the Atlanta theatergoers who were interviewed yesterday. It seems equally or even more impossible that these Shubert attractions would be given facilities at either the Bijou theater or the new Wells theater now in course of construction on Carnegie way and Cone street. Both the present Bijou and the new Wells house are for popular price attractions, and there has been no community of interests between these popular price theaters and the Shuberts.

Many there were who asked regarding the new theater which W. A. Wimbish proposed to build for the Shuberts. Mr. Wimbish was seen and asked about the matter. All that Mr. Wimbash cared to say about the matter was that when he first contemplated the building of a theater, special legislation in the city council was brought up in regard to the building of theaters. These requirements were not determined until July 6, and it was impossible to secure a permit to build until the matter was officially disposed of.

"After that time," said Mr. Wimbish, "it was impossible for me to build a theaten such as I should build if I built any on my property on Peachtree street beyond Caln, in time to open it at the beginning of the approaching season. If I had geen given a permit, I should have started building at that time. Now it would be impossible to erect such a theater in time."

This would seem to dispose of the housing of the Shubert attractions in Atlanta so far as the contemplated theater of Mr. Wimbish was concerned.

It has also been reported that Joel Hurt contemplated the building of a $70,000 play house on his property opposite the Equitable building, which with Edgewood and Exchange place forms a triangle. It was also reported on the street yesterday that Mr. Hurt had left for New York last Saturday night for the purpose of consulting with certain parties regarding the erection of this proposed theater.

As Mr. Hurt was also reported as having stated that he did not want the tracks of the proposed interurban trolley line to Macon to occupy Exchange place on the grounds that it would interfere with his theater property, this thoroughfare being designated as a carriage way for theatergoers, there were many who believed that this was proof positive of his intention of building at once. It was also reported that plans for the new play house had been submitted and its completion expected by November or December.

As the announcement that the Shubert attractions would appear in Atlanta came directly on the heels of this report, there were many who yesterday believed that a deal had been perfected between Mr. Hurt and the Shuberts for housing these attractions during their stay in Atlanta.

But this theory was also destroyed by Mr. Hurt, who stated that he had not seen any of the Shubert interests while in New York and knew nothing about the matter and had nothing to do with it.

All of the Atlanta theatergoers seen yesterday were anxious to see these Shubert attractions come to Atlanta, but with the expression of every theory advanced as to their finding an Atlanta home, most of the wise ones were disposed to dispose of the troublesome question with a shrug of their shoulders and the acknowledgment of their inability to decide this mysterious question so far as things theatrical stand in Atlanta at present.

TO WATCH COUNT OF THE BALLOTS

Candidates for Governor Can Have Representatives.

Notices Sent to Candidates by Chairman and Secretary of the Fulton County Executive Committee of Action of Committee. Replies Not Yet Received.

The chairman and secretary of the subcommittee of the Fulton county democratic executive committee have notified the candidates for governor that they can have a representative at each polling place in the county to witness the count of ballots at the primary on August 22.

Each candidate has been served with a written notice to that effect, but there has not been time for any replies to be received. It is probable that the candidates will avail themselves of the opportunity to have such representatives, and will so reply and send to the committee the names of such persons as they wish to look after the count of the ballots.

The notices sent out to the candidates for governor are as follows:

Letter to Candidates.

"Atlanta, Ga., August 9, 1906.—Dear Sir: The subcommittee of the democratic executive committee of Fulton county, Georgia, having in charge the details of the state white democratic primary election of said county, unanimously adopted a resolution at its session of the 7th inst., permitting yourself, if you so desire, to have a representative at each primary election precinct in said county to watch the count of the ballots cast in the primary election of August 22, 1906, for state house officers. The same privilege was accorded to the other candidates for governor.

"Should you desire to avail yourstif of the above named courtesy, kindly notify the undersigned in their official capacity by the 20th inst., together with names of the representatives for several precincts of this county and letters of authority will be promptly issued to them. If no reply is received by the undersigned in their official capacity from you by the above named date, such failure will be construed to mean that you do not wish to avail yourself of aforesaid courtesy. Very respectfully,

"A. H. VAN DYKE,
"Chairman Subcommittee.
"CHARLES N. ALLEN,
"Secretary Subcommittee."

Tax Collector Stewart made the statement yesterday morning that the present registration is the cleanest Fulton county has ever had.

"I believe," he remarked, "this is the cleanest registration we have ever had. There are only about twenty loafers around town who have had some one else to pay their taxes. Usually there are about two thousand of such people, who depend on the candidates for office to pay their taxes."

The total registration up to date is 11,500.

VETERANS MEET AT CONYERS.

Thirty-Fifth Georgia Hears Several Fine Addresses.

Conyers, Ga., August 9.—(Special.)—The reunion of the Thirty-fifth Georgia regiment of confederates, which was held here yesterday, was an occasion which will be remembered here for a long time. The reunion was one of unusual interest, and a large crowd gathered to honor the soldiers and hear the speeches.

Mrs. Dr. J. A. Guinn, president of the United Daughters of the Confederacy, delivered a most beautiful address of welcome.

The Hon. W. L. Peck responded in eloquent and glowing terms. Judge Gleaton and General Evans charmed the vast assemblage during the morning with appropriate and touching addresses, in which they reviewed the sufferings and heroism of our confederate soldiers.

After dinner the old soldiers sang patriotic songs, and several of them made nice little speeches.

The day passed off most pleasantly, and the Daughters of the Confederacy were cheered for the rich abundance with which they furnished their guests.

CHARGES MADE AGAINST JUDGE

Official Misconduct Preferred in the House.

Special Committee, Headed by Hall of Bibb, to Investigate Allegations of Misconduct on Part of Judge Martin, of the Oconee Circuit.

Charges of official misconduct upon the part of Judge John H. Martin, judge of the superior courts of the Oconee circuit, were read immediately before the hour of adjournment and a committee of five was appointed by the speaker upon motion of Mr. Hall, of Bibb, to investigate the charges and report back to the house whether or not it would be necessary to further investigate them. The speaker appointed the following five members as a special committee for that purpose: Messrs. Hall, of Bibb; Wright, of Richmond; Covington, of Colquitt; Adams, of Elbert, and Hayes, of Macon.

The charges, which were preferred by Samuel Greer, set forth that on August 6, 1905, the said judge granted a temporary restraining order against F. R. Greer, who was a non-resident and a foreigner, before service on the defendant, and the hearing on same was not had until October 4, 1905, at Hawkinsville, before said judge, who rendered no decision; that by reason thereof, the Commercial hotel at Fitzgerald, Ga., was closed up, entailing a loss of $3,000 upon the owners of the property.

Large Crowd of Coweta Farmers Hear Russell and Others.

Newnan, Ga., August 9.—(Special.)—Judge R. B. Russell addressed 2,000 voters here yesterday in the interest of his candidacy for the governorship, the occasion being a barbecue given by his Coweta friends. Judge Russell was introduced by Hon. H. A. Hall, and spoke for two hours.

The audience was composed chiefly of farmers. Strong speeches were made in the afternoon also by ex-Congressman Charles L. Moses and Captain Habersham King. The former, who was a member of congress when Hoke Smith was in Cleveland's cabinet, made some sensational charges against the ex-secretary of the interior.

EVERY DISTRICT TO HAVE SCHOOL

Perry Bill Was Passed by the House.

Provides for Eleven Agricultural Colleges in Georgia to Be Supported by Fees Derived From the Inspection of Fertilizers.

The house on yesterday passed the bill of Mr. Perry, of Hall, to establish agricultural colleges in each of the congressional districts of the state, such institutions to be created by authority of the governor, and to be maintained upon fees derived from inspection fees received from the inspection of fertilizers, oil and other inspection fees.

The governor is to appoint a trustee from each county of a district in which such a school shall be established, who shall hold office for six years, which trustees shall control and manage the school. Land, not less than 200 acres may be donated by citizens, together with additional donations in the way of buildings or money.

Tuition is to be free at these schools, and the students may receive as much as $100 per year of the earnings of the school, after one-half of the earnings have been set aside from the sale of products of the farm and shops, not consumed by the school.

Studies to Be Taught.

Pupils shall be taught the elementary English branches and agriculture in all its branches, and the mechanic arts. The faculty shall consist of a principal, an intelligent farmer, one superintendent and instructor in farm work, one intelligent mechanic, an instructor in dairying and such other teachers as are required for the carrying out of the purposes of the act.

The fees available from inspection receipts shall be available after the present year, but no sum is to be appropriated for this purpose which would otherwise go to the public school fund.

Charges of official misconduct against Judge John H. Martin, of the Oconee circuit, who lives at Hawkinsville, were filed with Governor Terrell by Samuel Greer, a litigant in that circuit, and transmitted to the house. The speaker appointed a committee of five, Mr. Hall, of Bibb, chairman, to investigate the charges and report back to the house whether or not impeachment proceedings shall be commenced against the judge. The account of the charges is published elsewhere.

At the afternoon session several private pension bills, and local bills were read the third time and passed, and a bill was passed appropriating $250 and authorizing the governor to appoint a commission of three to meet a similar commission, appointed by the governor of Tennessee, to determine the true line between the county of Dade, Georgia, and the state of Tennessee.

The Morning Session.

The house met at 9 o'clock, Speaker Slaton presiding.

On motion of Mr. Hall, of Bibb, Speaker Slaton requested visitors on the floor of the house, not entitled to the privilege, to retire.

The special order of the day, the bill of Mr. Perry, of Hall, to establish agricultural schools in every congressional district, was taken up, the house resolving itself into the committee of the whole, with Mr. Akin, of Bartow, in the chair.

Mr. Perry, of Hall, the author of the bill, spoke in explanation and advocacy of the measure. He stated that the fees which would maintain these schools were paid by farmers who in addition paid ad valorem taxes; that the governor had in two of his messages recommended the enactment of such legislation, the tuition in such schools to be free.

Mr. Hall, of Bibb, vigorously opposed the bill upon the ground that it was unconstitutional and was followed by Mr. Wise, of Fayette, who urged its passage.

"If it is an experiment," asked Mr. Covington, "why not try it in one instead of eleven counties?"

Mr. Flynt, of Spalding, made a strong argument for the passage of the bill, as did Mr. Connor, of Bartow, and Mr. Smith, of Greene, speeches in opposition to it being made by Mr. Longley, of Troup, and Mr. Jenkins, of Putnam.

The bill was perfected in the committee of the whole and reported with the recommendation that it do pass.

Messrs. Perry, of Hall, and Calvin, of Richmond, made strong and urgent appeals for the passage of the bill, Mr. Calvin stating that it would make for the betterment of the common schools of the state as well as for agriculture.

The bill was passed by a vote of 103 to 40, and was immediately transmitted to the senate.

Better Pay for Superintendent.

Next, the bill of Mr. Longley, of Troup, to authorize th etrustees of the Soldiers' home to increase the salary of the superintendent from $500 per annum to a sum to be fixed by them, not to exceed $1,000 per annum, was passed by a vote of 103 to 4. The trustees had not been able to secure a competent man for $500 per year.

By a report of the committee on rules, which was adopted, the local contested bill of Mr. Terry, of Randolph, to amend the charter of the city of Cuthbert so that a dispensary could be established and maintained in said city, was taken up. The committee on special judiciary of the house favorably reported the bill, but a minority report was submitted.

Mr. Flynt, of Spalding; Mr. Land, of Wilcox; Mr. George, of Morgan, and Mr. Covington, of Colquitt, spoke in support of the minority report of the special judiciary committee, which was unfavorable to the passage of the bill.

Mr. Covington made a unique, humorous and pathetic appeal for the heritage handed down by our ancestors of 2,000 years ago that the protection of our women was the most sacred charge bequeathed to it.

"Shall we," asked Mr. Covington, "be less chivalrous and kind to our wives and daughters than were our skin-clad ancestors, for if you pass this bill you put them at the mercy of every drunken negro who may put a pint of whisky, bought at their tank, in each pocket."

Mr. Terry, of Randolph, the author of the bill, concluded the debate, claiming that the people of his county had never really passed upon the issue of whether or not this dispensary should be established; that he was reelected upon the very issue of the establishment of the proposed dispensary in Cuthbert, and that the majority of the people of his county wished the bill passed.

An aye and nay vote was taken, Mr. Griffin, of Cobb, making a stirring speech in favor of the bill. He said that as a member of the special judiciary committee he had learned that 720 of the citizens of Mr. Terry's county had been disfranchised for the purpose of defeating the dispensary, and that the people of that county should be granted the passage of this bill, which allowed the mayor and council of Cuthbert to determine whether or not the dispensary should be created.

Just prior to adjournment the charges against Judge John A. Martin, of the Oconee circuit, were read. At 2 o'clock the house adjourned to meet at 3:30 o'clock.

The Afternoon Session.

The house reconvened at 3:30 o'clock in the afternoon.

The bill of Mr. Black, of Dawson, to pay a $60 pension to the widow of Moses A. Proctor, a confederate soldier, was put upon its passage and passed.

The following pension bills were then read the third time and passed:

By Messrs. Hardman and Holder of Jackson—To pay pension to Mrs. M. E. Lord.

By Mr. Blackburn of Fulton—To pay pension of John J. Myers, who, during 1901 and 1902, was in the state of Texas on a visit, during which time he was dropped from the pension rolls.

By Mr. Griffin of Cobb—To pay pension to Mrs. T. A. Morris.

By Mr. Mitchell of Thomas—To pay the pension of G. W. Cane.

By Messrs. Walker and Duggan of Washington—To pay pension of Jordan Fennell to his widow.

A message was read from his excellency, the governor, recommending the passage of a bill to appropriate $250, or so much thereof as may be necessary, for the purpose of establishing the true line between this state and the state of Tennessee.

The bill, by Mr. Cureton, of Dade, appropriating this sum and authorizing the governor to appoint a commission of three to confer with a similar commission appointed by the governor of Tennessee, was then taken up and passed.

The following bills were also read the third time and passed:

Mr. Mr. Millikin of Wayne—To revise superior court calendar committee for counties comprising Brunswick judicial circuit.

By Mr. Davis of Bibb—To require Bibb county commissioners to appropriate certain fixed sums of money to the two libraries in Macon.

At 5:30 o'clock the house adjourned to Friday morning at 9 o'clock.

SENATE PASSES BOYKIN BILL

All Wire Houses Are Put Out of Business.

The Wheatley Substitute Was Voted Down, After Which House Bill Was Passed by a Practically Unanimous Vote—Debate Was Lively.

The Boykin anti-bucket shop bill passed the senate yesterday by a vote of 38 to 3. The Wheatley substitute was lost by a vote of 29 to 14. With the enactment of the Boykin measure passes out of business in Georgia all bucket shops and socalled legitimate exchanges.

On announcement of the result of the aye and nay call by Reading Clerk Hansell, there was a hush and then loud applause. It required several raps of the gavel before President West could restore order. All during the debate, which lasted for three hours, the senate gallery, for the first time this session, was crowded with spectators, as was the lobby.

Congratulations for Boykin.

As soon as it was announced that bucket shops and exchanges had been put out of business in this state, Representative Boykin, father of the measre, who was on the floor, was almost suffocated by the statesmen and supporters of the bill who wished to congratulate him.

The vote on the Boykin bill was as follows:

Ayes—Adams, Alsobrook, Bennet, Blalock of the thirty-fifth, Blalock of the twenty-sixth, Bloodworth, Bond, Bunn, Candler, Carithers, Carswell, Copelan, Crum, Fitzgerald, Fortner, Foster, Furr, Graybill, Hand, Hogan, King, Lumsden, McAllister, McHenry, Miller, Orum, Parker, Phillips, Reid, Rose, Sirmans, Strange, Walker, Ware, Westbrook, Wheatley, Wilcox, Williams—38.

Nays—Foy, Mills, Peyton—3.

The vote on the Wheatley substitute was as follows:

Ayes—Crum, Foster, Foy, Hamby, Hand, Miller, Mills, Peyton, Rose, Steed, Sirmans, Westbrook, Wheatley, Wilcox—14.

Nays—Adams, Alsobrook, Bennet, Blalock of the thirty-fifth, Blalock of the twenty-sixth, Bloodworth, Bond, unn, Candler, Carithers, Carswell, Copeland, Fitzgerald, Fortner, Furr, Graybill, Hogan, King, Lumsden, McAllister, McHenry, Odum, Parker, Phillips, Reid, Strange, Walker, Ware, Williams—29.

The measure takes effect January 1, 1906.

Steed and Miller Spoke.

Senators Miller and Steed made a hard fight against the enactment of the Boykin measure. Senator Bunn also opposed it. Those who spoke for it were Senators O. A. Blalock and Candler. This measure received an adverse report a few days ago at the hands of the agricultural committee, but a minority report was made by Senators Williams, Ware, Furr, Parker and Walker.

Senator Blalock, who opened the morning session of the debate, argued that even if men did gamble under the Boykin bill, as was claimed by Senator Wheatley, he was in favor of enacting a bill that would wipe out as much of it as possible. Senator Candler's remarks were along the same line.

Senator Bunn stated that he looked at the matter in a fair and impartial manner, and could see no reason for adopting the Boykin bill.

Senator Steed made an able speech. His most striking argument was that if all exchanges dealing in cotton futures are abolished in all the states of the union, the prices of all products will be regulated by Liverpool and Bremen, and Europe will dictate absolutely all prices of American farm products.

Numerous Bills Passed.

Little else was done in the senate besides passing a large number of senate and house measures.

Chairman Hamby and the members of the state sanitorium committee, in conjunction with a committee from the house, yesterday afternoon at 4 o'clock, went to Milledgeville over the Central railway for annual inspection of the asylum. The matter especially to be passed on is the new system of waterworks which has been built at a cost of $70,000.

SOCIETY

Jones-Brooke.

A PRETTY wedding on Wednesday night was that of Miss Jessie Jones and Mr. Thomas Russell Brooke, of Montgomery, which took place at the home of the bride's mother on Johnson avenue. Rev. Mr. Jerrett, of Grace Methodist church, was the minister officiating, and there were eight ribbon bearers, the intimate girl friends of the bride—Misses Agnes Spence, Bertice Smith of Chattanooga, Mabel Jones, Janie Laird, May Dunlap, May Owen, Rhoda Pierce and Hallie Reese.

These young ladies entered the parlor in pairs, forming an aisle of ribbons, through which the bride and groom passed, and then surrounding them when they were made man and wife.

The bride, who is a charming young woman, blond and pretty, wore a beautiful lingerie gown and orange blossoms in her hair, and she carried a bouquet of bride roses.

The ribbon bearers were dressed in white with green girdles, and this color combination was observed throughout the decorative details of the house.

The bride and groom stood under a wedding bell of white flowers during the ceremony, and palms, ferns and white flowers were used effectively in all the reception rooms. Punch and delicious ices and cakes in green and white were served. Miss Janie Laird caught the bride's bouquet.

The bride's going-away gown was of a brown check tailor material with a touch of old rose, and her hat combined the shades of brown and old rose. She is an unusually talented young woman, who has made a specialty of elocution, studying here and in the east, and has been most successful in her work.

Mr. Brooke and his bride left after the wedding for a brief stay at Lookout Mountain before going east, and they will make their home in Montgomery, where he is prominently and popularly known.

BURNING BARN AROUSES PEOPLE

Salisbury Is Deeply Stirred by Burning of Lyerly's Barn.

Salisbury, N. C., August 9.—Feeling ran high in Salisbury again today when news reached here that the barn on the farm of Isaac Lyerly, for the murder of whose family the three negroes were lynched here Monday night, was burned shortly after midnight, presumably by friends of the negroes lynched.

Two horses were so badly burned they had to be shot. The militia is still on duty guarding the jail and court house. The case of the alleged lynchers under arrest probably will not be taken up at this term of court. George Hall, the first man arrested, desires to submit to a charge of conspiracy, the maximum penalty for which is a sentence to the penitentiary. It is expected many indictments will be returned by the grand jury.

GOODWIN WILL MAKE SPEECH

Candidate for Mayor Speaks This Evening in Vacant Store on Whitehall Street.

Thomas H. Goodwin, candidate for mayor, will hold a meeting and make an address this evening at 6:15 o'clock in the vacant store formerly occupied by the Bass Dry Goods Company, on Whitehall street, between Alabama and Hunter streets.

Mr. Goodwin says he has selected the hour of 6:15 because he wishes to meet with the clerks who will then just have left their places of bbusiness.

"It is principally to the clerks of the city that I wish to speak," says Mr. Goodwin.

He says his speech will be short and to the point and in it he will endeavor to discuss some of the issues on which he is making his race.

Selma, Ala., August 9.—Mrs. W. P. Fesperran, of Atlanta, Ga., who is visiting her aunt in this city, Mrs. Alderwilder Turner, awoke this morning to find that her two months' old baby had been smothered to death during the night. The child was sleeping by the side of the mother, and a pillow that had been placed at the child's head to protect it from a netting, had fallen on its face, smothering the little one.

HOTEL IS BEGUN IN CHATTANOOGA

Splendid $600,000 Structure Begun With Christening Ceremonies.

Chattanooga, August 9.—Ground was broken today and actual work started on the new $600,000 steel-constructed hotel on the corner of Eleventh and Market streets to be built by the Stone Fort Land Company. A building permit was taken out for $500,000. The work was started by a dynamite blast which followed a public gathering and demonstration. Speeches were made by Mayor Frierson, City Attorney Chamlee, Vice President Fletcher, of the chamber of commerce, and others. Miss Margaret Frierson, daughter of the mayor, christened the site and named the building "Hotel Patten" by breaking a bottle of champagne. J. B. Pound, president of the Chattanooga Hotel Company, was master of ceremonies.

PEONAGE CHARGE MADE BY SWEDE

Says He Was Brutally Treated in Florida Turpentine Camp.

New York, August 9.—A story of alleged ill-treatment in a turpentine camp in Florida was told today by Jacob Von Arx, a Swede, 24 years old, when he was arraigned in police sourt in Hoboken, N. J., on a charge of vagrancy.

Von Arx said he and four other men were engaged by a New York employment agency to go to Buffalo Bluff, Fla., to work in the turpentine camp. He said he worked four weeks and was paid $2.40. The food given the men, he declared, was bad, and the quarters unfit for habitation. Von Arx stated that he escaped from the camp once, but was captured, beaten and forced to return to work. He said he escaped a second time and made his way to this city as best he could on freight trains.

He said his companions were still prisoners at the camp, so far as he knew. Von Arx will be turned over to the Swedish consul here. Within the last few weeks several men have made complaints to the local authorities that they had been ill-treated in the southern turpentine camps; that they have been denied wages, and been beaten.

Protestant Society to Change Name.

Atlantic City, N. J., August 9.—The American Protestant Association here today decided to change the name of the organization because of the general confounding of the order with the American Protective Association. Officials and leaders claim that the objects of the two societies are entirely different. Several names, including the "Protestant Association of America" and the "American Knights," were proposed. Final action in the matter cannot be taken until next year.

MILLIONS OF DOLLARS ARE SAVED EVERY YEAR BY PEOPLE OF ECONOMY

A Great Week's Sale by the Becht Piano Company, 62 North Forsyth Street.

This is a Money Saving Proposition.

Please don't get it into your mind that this is a sale of cheap instrments Not so—the very best manufacturers in the country are represented right here and at nearly one-half price.

People who are experts have attended this sale and have bought quickly—why? The leading manufacturers are today known by all classes—name a cut price on their hands and it will be bought immediately.

This is a bona fide sale of fine pianos that is necessitated by a change of business and not a sensational affair to run off a lot of cheap stuff just for the sake of a little profit.

Don't take our word. Come and see the goods for yourself. If you know anything about standard makes in the piano world—then you will know what we are talking about. Think! A $400.00 Piano for $215. Oh, well, just come and see it; that's all!

Not a lot of second hand or warehouse worn instruments, but the very newest thing possible, not yet taken from the original factory case, and for just one-half price. What do you think of that? It's a fact and our show rooms prove it.

Our Mr. E. G. Becht having recently retired from the Becht Piano Company of New York, has instructed a price on standard goods that will force a quick removal of the 100 Pianos in the Atlanta department.

Cash was the consideration on this sale, but after deliberation, it was decided to make terms when desired. So don't hesitate to make your proposition. It's very probable that we can use your contract just the same as cash.

It's true, we have a very few second hand instruments; some of them scarcely used, and in that line we will make a price that is simply astonishing.

If you are in the market for a good Piano look at our brands. Some of the builders date back a quarter century or more—and then look at the price we are making on these goods, and when you do that we do not need to say any more—Atlanta is full of intelligent people.

Don't get it fixed in your mind, please, that you can wait a day or so longer and get the same thing. Not so: when the one hundred instruments that we have now in our warehouse and show rooms have exhausted, it's all over, and then if you buy these same makes of instruments you will pay the standard price.

Don't wait—come today—it's to your interest. If we can't prove it to you emphatically, then don't buy; no compulsion. Come and be your own judge. You know a bargain when you see it, don't you? If you do there is no reason for procrastination.

Out of town people who cannot visit the city can write us about the special makes of Pianos, and it is very likely that we have just what you will want, and the great saving we offer makes it very advisable to visit us even from a distance.

BIG TOM HUGHES HIT BALL HARD

His Single and Triple Enabled Atlanta to Win.

Atlanta Presented Very Weakened Line-Up as Result of an Injury to Otto Jordan—Nashville Scored Her Only Tally in the Eighth.

WHERE THEY PLAY TODAY.
Atlanta in Nashville.
Birmingham in Montgomery.
New Orleans in Memphis.
Little Rock in Shreveport.

YESTERDAY'S RESULTS.
Atlanta 3, Nashville 1.
Birmingham 5, Montgomery 4.
Little Rock 2, New Orleans 1.

Nashville, Tenn., August 9.—(Special.)—Solving the delivery of Slabman Hughes proved a very hard proposition to the Nashvilians today. The former Highlander, for whom Atlanta handed over to Clark Griffith a tidy sum, proved as tough with his benders as any twirler the locals have faced.

In the nine innings he gave up but three bingles, one of which was a scratch.

Hughes was also there with his batting eye. He gathered off Buchanan one single and a smashing triple, sent between left and center, the ball going to the back fence. His drives in both cases helped to give the Firecrackers the runs that won the game.

Buchanan did not have his usual supply. Though he yielded but eight hits, his opponents were able to get in their stick work at the proper time.

Two of the runs were batted in, while the third came as a reason of Castro's error. Castro, despite the two errors made, played sensationally. He made a beautiful one-handed catch of a line drive, and doubled a runner up at first. His one-handed pickup of a hot grounder was also of the gilt-edge kind. This neat play, however, he spoiled by throwing wild to first in trying to put out the batter.

Nashville's lone run was a gift by Dick Crozier. He dropped Pearson's fly to left, and Wells, who was on second, tallied.

Then it appeared as if Atlanta's lead would be cut down in the eighth, but Hughes got back into his stride, and checked the batting. While Nashville was at the bat in the inning, and with two men on the bases, Jupiter Pluvius interfered, a shower setting in, and both sides left the field. Play was not resumed again for eighteen minutes, although the rain had ceased several minutes previously. The game should not have been stopped at all, for there was not enough rain to cause the umpires to take to cover. Furthermore, there should have been no delay in continuing play.

Wallace led off with a two-bagger in the fifth, which resulted in Atlanta's first run, as he scored when Hughes rapped one to left. Another man was sent around in the seventh. Archer laced one right over second. Castro scooped it up with one hand, but threw wild to first, giving the batter an extra base. With two down, "Cass" made another error of Hughes' grounder, and Archer completed the circuit.

Hughes' triple and Hoffman's infield hit to first brought the former over with the last run.

Murphy Commends Pulliam.

New York, August 9.—Charles W. Murphy, president of the Chicago baseball team of the National League, today wrote to the president of the league, Harry C. Pulliam, commending him for the stand he took with regard to the forfeited game at the Polo grounds Tuesday. President Murphy said in part:

"The exoluding of Umpire Johnstone from the Polo grounds by the New York club was unfortunate, and the officials of that organization have since stated publicly that they regret the action. According to the constitution of the National League, the New Pork club could be fined not to exceed $1,000 for the ill-advised action taken Tuesday, when one of the basic principles of organized professional baseball was violated. The Chicago club will not ask that this fine be assessed by the board of directors of the National League. Manager Frank L. Chance, all the players and I feel that we have won a most signal victory by striking a telling blow at anarchy in baseball, and the godd will and esteem of the press and public of the United States is sufficient reward for us."

Hank O'Day Reinstated.

New York, August 9.—It was announced by President Pulliam, of the National League, today that Umpire Hank O'Day, who was fined $50 for not preventing the fight between Players McGinity, of New York, and Peitz, of Pittsburg, on the grounds of the latter club, has been restored to good standing on the staff of umpires and will resume his duty tomorrow.

WALTHOUR'S DEFEATS DUE PROBABLY TO BAD MOTORS

Bobby Walthour, the one time world champion, seems to be having a run of hard luck in the old country, where he has been racing nearly a month, for not only has he lost the title of world's champion, but has suffered overwhelming defeat at the hands of third-rate riders.

But motors have had a lot to do with Walthour's defeats, thinks Gus Castle. On the other side of the pond they are using the large motors and Bobby must have gotten hold of a machine that was not working up to standard. In his first race with Guignard, Lorgeau and Rosenloecher in Dresden on July 15 the Atlanta rider was twenty-seven laps behind Guignard and all the foreigners have been considered inferior men heretofore and ones not approaching Walthour's class.

In an hour race with Guignard in Dresden Bobby was fourteen laps to the rear when the foreigner came in a winner. Walthour had been training for the 20 and 40-mile races and the fact that he broke into these hour affairs again may have had to do with his defeat in this race. The hour races continue for that length of time with an unlimited number of kilometers to grind off and are far different from the usual 15-mile and other distance limited races.

Darragon was the man who wrested the title away from Bobby in Geneva on July 29. Walthour will return to this country about October 15 and bring this rider, together with other foreigners, to Atlanta to train for the big six-day race in New York city later on.

Gus Castle says there is no accounting for the defeats unless they were caused by bum motors and the hour races. He has not heard from Bobby yet, but is of the opinion that this is an explanation of the defeats.

STRIKE TIES UP FREIGHT IN N. Y.

Railroad Tug Men Demand Increased Pay.

Oilers, Deck Hands and Firemen Quit Work—Comparatively Few Boats Being Operated in East River—Employers' Compromise Offer Is Rejected.

New York, August 9.—A strike of several hundred men as deck hands, oilers, and firemen on railroad tug boats in this harbor badly tied up the railroad tugboat fleet today. This in turn prevented the movement of a large amount of freight from the railroad terminals in Jersey City to this city. Should the strike be prolonged it is expected that hundreds of car loads of food supplies for this city will be tied up, as a large percentage of it is lightered to the city and the railroad tugs do the towing.

It was estimated that not more than one-third of the freight arriving at the railroad terminals was moved across the harbor today, and that many car loads of perishable freight and vegetbles were stalled at least temporarily in Jersey City, Staten island and at Port Morrison, the East river. In consequence the local markets were short of supplies. The general freight on the Central railroad of New Jersey was tied up, but it was able to deliver its perishable freight after some delay.

The Baltimore and Ohio floats, which usually bring the freight from Staten island, were tied up at the docks. The New York Central kept only eight of its twenty tugs in operation.

Situation Is Serious.

Officers of the company endeavored to secure the assistance of private towing companies, but their men refused to help move the floats. The Erie Railroad Company had some tugs in use and the marine service of the Lackawanna was partly stopped. Railroad freight agents said that if the strike continued the effect would soon become serious, not only for New Yorkers, but would prevent the interchange of freight between railroads.

Officials of the Central railroad of New Jersey today offered to pay the strikers an increase of $5 a month. This was not accepted, as the mates are demanding $10. Railroad officials and strike leaders met in conference this afternoon in an effort to reach a settlement of their differences.

The newspapers are enthusiastic over the American delegates, espeically dwelling on the oratorical powers of the Rev. Anna H. Shaw and Ida Husted Harper, and the presidential ability of Mrs. Carrie Chapman Catt. They print portraits of all the Americans.

The fashionable ladies' clubs gave a reception today in honor of the delegates.

HARRIMAN MEN MADE DIRECTORS

Scores Victory in Wells-Fargo Company Election.

All Propositions Advanced by Walter C. Stokes' Followers Are Defeated—Motion to Increase Dividend Is Lost—Left to the Board.

New York, August 9.—At the annual meeting of the stockholders of the Wells Fargo & Co., here, today, the ticket of thirteen directors, headed by E. H. Harriman, and composed of members of present board, was elected over a ticket named by counsel for Walter C. Stokes, who has been leading an opposition movement. The result was not announced till late this afternoon, the listing of proxies being carried on under the closest scrutiny.

The vote for the Harriman ticket was 47,568 to 26,216 for the Stokes representatives.

Not only did the Harriman administration elect directors, but it also defeated every proposition advanced by the opposition party.

Untermeyer Turned Down.

The resolution offered by Samuel Untermyer, counsel to Mr. Stokes, declaring an extra dividend of 7 per cent in addition to the dividend of 9 per cent already announced, was lost, as well the resolution in favor of declaring annually hereafter a 16 per cent dividend. A resolution calling for the appointment of a committee to investigate the affairs of the company was also lost.

The resolution offered by William Nelson Cromwell, counsel for the Harriman party, which called for the appointment of a committee to examine the loan of the company, was adopted, as was also his resolution which recommended that the printing of the annual report be left to the discretion of the board of directors. This was among the matters which caused discussion, the minority stockholders demanding that all the report be printed.

A resolution was carried, offered by Mr. Cromwell, which recommends that the question of increasing the dividend rate be left to the board of directors.

OLD NEAL HOME HAS BEEN SOLD

Reed and Farmer Purchased the Property, Paying $30,000.

The historic old Neal home, on Mitchell and Pryor streets, one of the land marks of the city, was sold yesterday for the sum of $30,000. The house was sold by the executor of the Neal estate, Mr. Thornton, of the Neal Loan and Banking Company, to the real estate firm of Reid & Farmer, in a private sale.

Though it now marks an acute line between Atlanta's business life and its residential section, the Neal home was within the last quarter of a century in the very heart of the fashionable residences of the south side. Immediately after the war between the states the late John Neal, then one of Atlanta's most energetic and progressive citizens, built the brick structure which by the sale yesterday passed into the possession of the new owners. The corner of Pryor and Mitchell streets was then practically in the country, and a suburban home it was Mr. Neal was building when its foundations were laid.

At that time the county court house was upon the hill where the state house now stands, and the Neal home was practically in the country. When completed it was considered one of the handsomest residences in this section of the state. The Neal home was considered one of the most beautiful and attractive in the city. There Mr. Neal, one of the successful Georgians of his age, lived for years. The home was the scene of many pleasant social gatherings. Its lawns, always replete with flowers and always well kept, made the residence an attractive spot to all who passed that section of the city.

Sheriff Clements is searching for the thieves with bloodhounds.

"There's a Reason"

DIES OF RABIES IN PRISON CELL

Morristown, Tenn., August 9.—James Brady, a local Baptist preacher, died in the county jail from hydrophobia. Brady had been bitten by his own dog, which was soon after killed. A few days later Brady developed symptoms of rabies, became uncontrollable, and was placed in a cell to restrain him. He suffered fearfully.

ANTIETAM MINUS MISTAKES.

British Army Fights Sham Battle on Aaron's Banks.

London, August 9.—The battle of Ontietam "without its mistakes" was refought today on the banks of the Avon as part of the maneuvers of the British army, and was won by sheer force of numbers by the side representing the northern army.

No larger force ever assembled on Salisbury plain than appeared today for this sham battle. The umpire was Lieutenant General Hamilton. Among those present were Minister of War Haldane and John Burns, president of the local government board. Thirty-five thousand troops, composed of regulars and volunteers, were engaged. Major General Franklyn, commanded the northern army, and Brigadier General Allenby the southern army. General Franklyn's forces outnumbered those under General Allenby two to one. The operations lasted fours hours.

ROOSEVELT HOME CLUB FAILS.

Society Which Sought to Buy President's Homestead Abandons Idea.

New York, August 9.—The Roosevelt Home Club, which was organized to acquire possession of the Roosevelt homestead where the president was born and to maintain it as a landmark in the city of New York, has decided that it is not in a position to fulfill its mission.

Justice MacLean, in the supreme court today, on the application of Roderick Begg, president of the club, and the other directors and officers, signed an order permitting the sale of the Roosevelt homestead for the sum of $60,000.

The project of securing the birthplace of President Roosevelt at No. 28 East Twentieth street was discouraged by the president and from that time the proposition became a failure.

OIL COMBINE MAKES APPEAL.

Asks President to Interfere in Controversy With State Department.

Oyster Bay, August 9.—President Roosevelt was apealed to by the Standard Oil Company today in the matter of its controversy with the department of the interior regarding oil line leases in Indian Territory. Former Senator James K. Jones, of Arkansas, representing the company in a legal capacity, and Mr. Barnsdale, of Pittsburg, representing the company directly, were callers at Sagamore Till today. Both declined to discuss the object of their visit.

Mr. Jones said the call was purely a matter of business, but he refused to say what results were accomplished. The oil lease controversy in the territory has been a matter of lively contention for some time, and the status of these leases was made the subject of protracted consideration by congress recently.

MORTON CLEARED OF SANTA FE SINS

Interstate Commerce Commission Exonerates Accused.

Declares Former Secretary of Navy Was Guilty of No Criminal Industry—Rebates Given Primarily "to Develop Coal Industry" in West.

Washington, August 9.—In a statement issued today by the interstate commerce commission regarding the conviction of the Atchison, Topeka and Santa Fe Railroad Company for violating the law with respect to the giving of rebates, the commission says:

"The avowed purpose of the practice tends to support the view that there was no criminal intent on the part of Paul Morton, former head of the traffic department of the Santa Fe, and other railroad officials involved."

The statement calls attention to the fact that with the imposition of the $15,000 fine on the road, "the history of the famous Santa Fe rebate case is practically closed," and praises the president and Attorney General Moody for carrying out with success the administration's declared purpose to enforce the statute in all such cases. The statement follows:

"With the recent conviction of the Atchison, Topeka and Santa Fe Railway Company and the Colorado Fuel and Iron Company and a fine of $15,000 imposed upon each in the federal court of New Mexico, for violation of the interstate commerce law through giving rebates by the railway company to the fuel and iron company, the history of the famous Santa Fe rebate case is probably closed.

Moody Is Given Praise.

"Too much praise cannot be accorded to Attorney General Moody in carrying this case through to a successful termination, and that, too, after the adverse criticism in many journals of the refusal of the administration to undertake the prosecution of Paul Morton, then secretary of the navy and formerly head of the traffic department of the Santa Fe. The attorney general in disagreeing with Messrs. Harmon and Judson, who had been employed by the government to make an inquiry, acted plainly with foreknowledge of the legal difficulties that attended every step in the attempted prosecution of Mr. Morton and other officials in this peculiar case which really grew out of a long-standing practice intended primarily to develop the coal industry in Colorado and New Mexico, which really did have that effect, and which only became conspicuously unlawful after the passage of the Elkins law in 1903, and the courageous investigation and report of the facts by the interstate commerce commission to the attorney general.

Criminal Intent Denied.

"There was a technical violation of the law involved in the transaction as has always been plain, but that there was criminal intent on the part of Mr. Morton and the other officials involved has always been denied; and the avowed purpose of the practice tends to support that view. On the other hand it is not difficult to prosecute the corporations themselves, and upon an agreed statement of facts presented to the court, the fines above mentioned were imposed. It will be remembered that the department of justice first sought to use this case and others in the Kansas City federal court to establish contempt on the part of the Santa Fe which was then under injunction issued in omnibus form and covering all traffic against that carrier and numerous other carriers engaged largely in carrying grain products and live stock products, on account of rebates shown to have been granted generally on such traffic in a former investigation by the interstate commerce commission.

No General Injunction.

"This attempt to establish contempt by showing rebates in coal failed, the court holding that a general injunction could not be lawfully issued. Later on a civil case brought against the Santa Fe by coal mining companies discriminated against in favor of the Colorado Coal and Iron Company was settled by the payment of something like a half million dollars; and now has followed the conviction as above stated on the railway company and the fuel and iron company.

"Thus apparently ends a famous chapter in the history of litigation under the interstate commerce laws.

"The interstate commerce commission deserves the credit of initial investigation and public report, but the great praise is due to Attorney General Moody and, of course, President Roosevelt."

POLITICAL GOSSIP FROM ALABAMA

Clarke and O'Neal Speak to Voters.

Interest in Comer's Response to Accusation of Violating the Child Labor Law—Race for Supreme Court Justice Attracting Attention.

Montgomery, Ala., August 9.—(Special.) The appearance of Emmet O'Neal, candidate for the democratic nomination for lieutenant governor, and Richard H. Clarke, aspirant for democratic endorsement for alternate senator, in the court house Tuesday night, had the effect of livening up political interest to a large extent, though it seems that nothing on earth could stir things to anything like the enthusiasm of the past.

At no time in the history of the state has a campaign aroused so little notice. Unless there is speaking or a specially provided occasion of political nature, one forgets to remember that there is such a thing as a state contest on.

Mr. Clarke, however, has always been able to attract attention to himself in Alabama. His political life has been cast on high lines, and he has never been altogether a success as a politician as a consequence. A short term in congress showed him to be a man of resources, and his failure to be retained indicated his inability to keep in line with the politicians, though the records show that he did wonderfully well for his district.

Mr. O'Neal has an inherited and an acquired record. His father made a fine soldier as colonel of an Alabama regiment in the confederate army, and later as governor, and the son has added luster to the family name as United States district attorney under Mr. Cleveland. He is up against a hard fight, his opponents being D. J. Meador, a rich farmer of Marengo county, and a skilled politician, and Henry B. Gray, of Birmingham, a banker well posted in the art of vote getting, and possessed of extensive financial means.

Comer and Child Labor.

There is some curiosity concerning the defense of B. B. Comer to charges made by Rev. Mr. McKelvay, of Georgia, that he violated the laws of Alabama in working children under age in his cotton mills at Avondale. It is reported that his managers are preparing a statement to be sent out in a few days, in which they will contend that no such thing has ever been done; also that the names of children used in the letter were some not known there. In publishing the letter The Montgomery Advertiser, by bad proof reading, got the date wrong. It should have been dated July 24, instead of July 4. While Dr. R. M. Cunningham is canvassing the state in a quiet, unobtrusive way, paying his own money for his expenses, the Comer committee is shelling the woods with every sort of plan for securing the votes. The Birmingham headquarters are mailing this month more than five hundred pounds of first class mail matter.

State Convention.

There will be only two things for the state democratic convention, which meets here September 10, to do. The first is to determine the nominees for chief justice and two associate justices of the supreme court, and the second to select a state executive committee. As here are only two men in the race for chief justice, the result of the primary on August 27, will determine which is elected. At least one of the associates, however, will have to be chosen by the convention, as it is not likely that any two will receive majorities with five running. The impression is that Justice J. R. Dowdell, seeking to succeed himself, will be nominated direct. The plan is for every man to be voted for in the primary, with each given his pro rata strength in the convention, though the nominees must each have a majority of all the votes cast. This will no doubt make it necessary for the convention to fight it out for one of them.

The candidates are J. R. Dowdell, now on the bench, T. C. McClellan, nephew of the late Chief Justice McClellan; Thos. W. Coleman, judge of the city court of Anniston; W. H. Parks, chancellor of the Montgomery division, and J. A. Bilbro, former judge of the Gadsden court.

Damage was also done to the tobacco plants.

This Price Put Up

You can make an extra room of your porch--the coolest, most serviceable room in your home, too--for summer.

Vudor Porch Shades make this possible; they keep out the hot sun, but admit the cool, refreshing breeze. They give absolute privacy, for no one can look through them from the outside; yet they are so constructed that from the inside, you can see all that goes on without!

They can be instantly raised or lowered, with very little effort. A practically indestructible device (operating on the principle of a theater curtain) accomplishes this. They are light, but exceedingly durable, being constructed of thin strips of linden wood fiber woven with the strongest seine twine.

Vudor Shades are artistic in the extreme; stained in soft colors that rest the eye and harmonize with any style of architecture. The colors are absolutely indelible, and will neither fade nor crock off.

Vudor Shades, while they add to the appearance of even the most palatial mansion, are not a luxury for the rich alone. Their moderate price puts them within the reach of everyone who can afford to have a porch at all. The cost is insignificant in comparison with their utility and the added comfort and pleasure they afford.

Think of the many pleasant hours you can spend on your porch during the hot, stifling days in summer if it is equipped with these Shades! Fanned by every cooling breeze, seeing every passer-by--yet secure against the burning rays of the summer sun and the inquisitive gaze of neighbor and stranger alike!

Think of this inviting, secluded, cool retreat where a man may smoke and rest in freedom and comfort; or where a woman may entertain her friends at luncheon or sit with her sewing in restful negligee; or where the children may play in the invigorating summer air, without fear or danger of the often-fatal sunstroke!

Picture these things to yourself--compare mentally the small cost of Vudor Shades with their beauty, durability, and the pleasure they yield--and then ask yourself, can you afford to be without Vudor Porch Shades this summer?

WIRE GRASS CHAIRS, $4.50 UP

Wire Grass

To fully comprehend the merits of this new furniture, it must be borne in mind that this grass yields one of the longest as well as one of the toughest of fibers. It is practically indestructible, yet so pliant and workable as to lend itself to the most artistic forms. The grass requires no rotting, decortication, or chemicals to fit it for manufacturing purposes—treatments that seriously impair the durability and beauty of other fibrous materials.

Crex Grass Furniture has its usefulness and dependability deeply seated in the very fine and very strong framework, which is one of its most admirable characteristics. In the woodwork are closely followed the honest methods of our forefathers, who built for future generations.

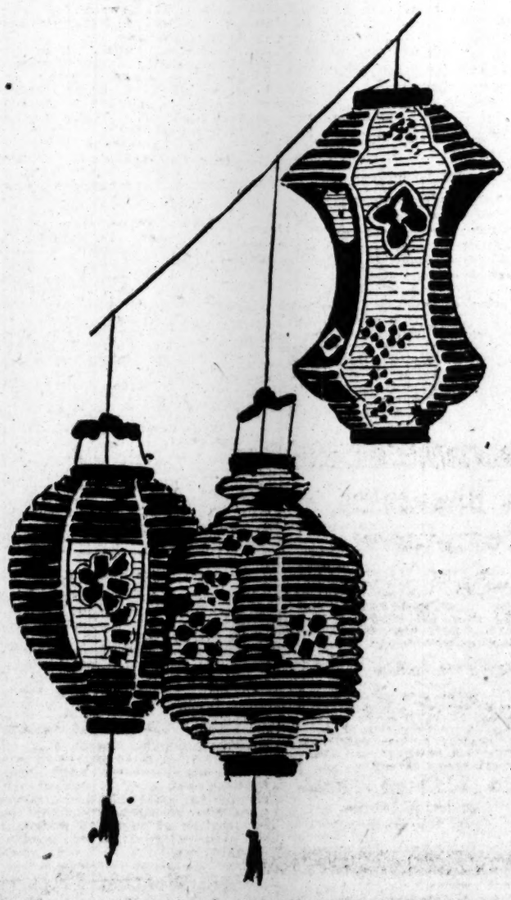

This perfect framework is made entirely from selected second-growth ash, thoroughly seasoned, and so solidly joined that all the strain of use and wear is taken from the grass twine that is later wrapped on it.

The twine, which not only forms its own finish, but finally bears the sizing and varnish that serve to preserve the beautiful surface tones of the grass, is wound on by experts, who have been taught the process as an art. It lies on the framework with the regularity of the threads in a beautiful fabric, free from the unsightly knots and joinings that blemish the best rattan and willow work.

Finished goods made from prairie grass retain the beautiful surface and delightfully soft green color of the perfect grass.

COTTON MARKET BROKE SHARPLY

Reaching New Low Level Under Heavy Liquidation.

It Was Estimated One Trader Sold 100,000 Bales During the Middle Session—Believed to Be for the Account of a Recent Bull.

New York, August 9.—The cotton market was active today and prices broke sharply to a new low level for the season under heavy liquidation and bear pressure which was attended by considerable excitement among call traders who did most of the business after some selling through wire houses during the early session. The close was only 4 or 5 points up from the lowest, at a net decline of 18@23 points. Sales for the day were estimated at 300,000 bales. The market opened steady at a decline of 2@5 points, which was considered a little better than due on the cables, but the market soon weakened under the favorable weather reports and private wires from New Orleans, reporting that the interior was offering spot cotton more freely. Some prominent local brokers were very heavy sellers on the decline, and it is estimated that one trader sold no less than 100,000 bales during the middle session. This cotton was believed to be for the account of a recent bull, who some thought to be going short for a turn while others believed that the sales represented liquidation of long accounts. Recent buyers for a reaction also liquidated and doubled on the short side on a scale down, and taken altogether, the market acted very weak and unsettled. October sold off to 9.62, and December to 9.73, or about 26@27 points net lower, 76@87 points below the high level of July 17, and over a cent, or about $5 a bale down from the high level of last May. There was covering enough at the decline to cause a slight rally, but there was no snap to the buying and but little sign of bull support, while local professions were talking still lower prices in spite of the radical reduction in the long interest. Southern spot markets were unchanged to 1-8c lower.

Receipts at the ports today 2,805 bales, against 2,848 last week and 7,025 last year. For the week 25,000 bales, against 33,505 last week, and 63,143 last year. Today's receipts at New Orleans 52 bales against 3,029 last year and at Houston 2,431 bales against 2,945 last year.

New Orleans Cotton Market.

New Orleans, August 9.—Cotton—Spots closed quiet and steady with prices unchanged; middling, 10 5-16; sales, 625 bales on the spot and 150 to arrive. Futures opened barely steady, 2 to 7 points under yesterday's close. On good crop news the market began to show the first marked movement it has exhibited in any direction for some time. Heavy selling by bears on the crop news and reports that one operator in New York was selling about 1000,000 bales sent the market down rapidly before noon. By midday, when the decline reached its culmination and the conservative bears appeared to have sold out, the decline had uniformerly extended to about 20 points. The close was in general a little above the lowest, with the market steady and prices 16 to 25 points net lower.

The Dry Goods Market.

New York, August 9.—The dry goods market today was strong and prices were very firm. The jobbers are doing a very large trade in domestic dress goods and linens. An appeal has been sent out for the establishment of a silk conditioning house in New York as this port is now said to be the largest in silk receipts in the world.

Liverpool Cotton Market.

Liverpool, August 9.—12.30 p. m.—Cotton spots quiet, moderate demand at 3 points advance; middling upland 5.84; sales 8,000 bales; speculation and export 600; receipts 1,000, of which 600 American.

Futures opened quiet and steady.

Gibert & Clay.

New Orleans, August 9.—COTTON—The speculative buying of the past few days in Liverpool seems to have been the foreign market's strength, and cables indicated that as soon as the support was withdrawn lower prices would follow. Options lost in the net result 6 points from yesterday's close, while spot sales amounted to 6,000 bales, 3 points higher. Increased activity marked the day's developments, a more general interest in market affairs being displayed on all sides. Frequently during the day the market would steady up on covering by satisfied shorts but every such period would only serve as a further incentive for bearish attacks. However, there was nothing unnatural about the decline for the exceedingly favorable crop news justified in a measure the lower range of values attained. Our own advices from the interior are excellent, indeed, stamping with more certainty the ruling prospects for a splendid out-turn. The variable weather of late, now wet and overcast, now clear and dry, has in reality given considerable impetus to the further development and maturity of the plants already heavily fruited. With these facts in view, it appears as if present prices are completely vindicated by the conditions existing.

Chicago, August 9.—WHEAT—Except for a brief period of strength at the opening, the market was weak all day. Quite an aggregate quantity of long wheat has been quietly placed on sale. With every prospect of further liquidation and the fact that the northwest will soon be moving new wheat, causes us to feel that lower prices are inevitable.

CORN—Has shown considerable weakness, particularly for new crop months. Selling by local profession traders, those raiding the market at favorable times and attempting to cover on declines. Some fairly influential local buying on declines today.

OATS—Weakened with other grains. Nebraska sentiment claims that oats in shock have been considerably damaged. Weak longs liquidated freely today. Believe they are a safe purchase.

PROVISIONS—Sentiment in provision trade more bearish than for some time. The big run of hogs here and west is becoming a serious problem in the situation as a whole.

New York, August 9.—STOCK—The action of the market today demonstrated rather clearly, in conjunction with the trading since Saturday, that deferred action on important matters connected with Union Pacific, and perhaps Southern Pacific, was anticipated. The same development was initiated in Colorado Fuel and Consolidated Gas and the feature of the week has therefore been disappointing to those who expected favorable developments from these sources. So many things point to the recent price movement in the stock market being the result of speculative conditions rather than of fundamental influences that we must conclude the time is nearly ripe for support and a higher range of values. The mere fact that action by executive committees and boards of directors has been deferred should not change opinions on values or the intent to place certain properties on a consistent dividend basis. The entire security list has accepted what looks like nearly complete liquidation since last Saturday, and while more of this selling may develop, we believe the better class of stocks will be found scarce on this development.

Ware & Leland.

New York, August 9.—COTTON—The flood damage reports from the southwest in circulation yesterday served to bring short covering, so that when Liverpool failed to advance this morning the effort to sell a large quantity of cotton led to the most severe break we have seen this season. Prices tumbled away rapidly with October selling at 9.62, or 30 points below the price of yesterday. Trading was on an extensive scale and at 9.80 for December, something like 50,000 bales of cotton was poured into the market from one source. This selling led to extreme weakness and at times it was difficult to sell any cotton. It is an open question whether there is enough general support to hold the price even at this figure and unless there is extensive crop damage the price is likely to work lower. There may be rallies from time to time but the tendency still seems to be toward a lower level.

Chicago, August 9.—WHEAT—Long wheat was thrown over by local holders, a small advance took early on northwest buying, but clearing weather and weakness abroad brought about heavy selling that resulted in very sharp declines. There was lack of support, but cash houses stepped in and bought September that steadied the market. Export limits were reached on about 50 to 75 loads, and created a little better feeling with the impression prevailing that a generally accepted bearish bureau report to be issued tomorrow was being discounted. The closing was not very stout, however, the buying power wasn't extensive, and about all that can be looked for is a scalping market.

CORN—Trade was rather light early, but with the break in wheat and greatly improved weather selling orders became numerous and quite pressing on the May kind that broke rather sharply, although September and December worked off in sympathy. Shorts covered September on reports of large cash sales, but December and May did not display much strength. Acceptances were reported as light, the September kind is regarded as a fancy deal and that future could advance, while December and May were declining. The bureau report tomorrow may show up better than expected.

OATS—The break in wheat and corn was too much for the futures, buyers of yesterday throwing over their holdings, and considerable scattered liquidation appearing on prospects of improving weather. A bullish bureau report is expected, but with some modification compared with July.

PROVISIONS—Local and commission houses were bear sellers, but English houses bought lard and the packers took on ribs due to an estimate of smaller stocks. It is doubtful if declines extend much further, for the packers will most likely extend support.

New York, August 9.—STOCKS—Irregularity was prevalent in the stock market today. Opening soft, the market rallied met stock, and then declined, with the possibility of another moderate rally to salute the government crop report tomorrow, when probably more realizing will occur, and a dragging down take place because of the unfavorable money situation, which has prevented an adequate outside interest from entering the market aggressively. We think the actual position will be found the best and as recommended in the last two days would observe trading rules with special regard for the individual positions. We regard the market as being in a position to give considerable activity for a time. We don't see why the market should turn into a bear affair in view of the big crops and fundamentals, and we do not expect a big bull market because of the restraining influence of the money situation and its extensive ramifications.

Hubbard Bros. & Co.

New York, August 9.—COTTON—Another new factor appeared in the situation today when enormous selling set in at about 9.80 for December. At this price a very large amount was sold to the surprise of the trade, who thought the heavy selling after the bureau report had liquidated the last of the bull movement which began last March. Today's selling is thought to be largely a reversal of position, brought about by the better weather in the southwest. Our cable advices from Liverpool sated that American selling was the feature there, before our opening, and that it continued to the close. This decline should be followed by a natural reaction, depending upon the weather conditions. Throughout the south the weather today is very favorbale, though complaints of the appearance of worms and weevil in Texas are at hand.

The Treasury Statement.

Fear of Bearish Government Report Today Chief Cause.

At the Close September Wheat Was 3-4c Lower—Corn Was 1-4c Down. Oats Showed 1-4 to 3-8c Loss. Provisions Were Unchanged to 12 1-2c Lower.

Chicago, August 9.—Improved weather conditions and fear that the government report to be made public tomorrow would show a big yield, caused weakness today in the local wheat market. At the close wheat for September delivery was off ⅝c. Corn was down ¼c. Oats showed a loss of ¼@⅜c. Provisions were unchanged to 12½c lower.

With the exectpion of a brief period at the opening the wheat market was weak all day. During the early part of the session the chief influence was weather conditions, an absence of rain both in the northwest and in the southwest being reported. Later a general belief that the government report which will be published tomorrow would indicate a larger yield than a year ago caused increased selling. There were other factors that helped to weaken the market. Among these were weak cables, lower cash wheat at Kansas City and St. Louis, and an estimate of liberal local receipts tomorrow. Local longs were the principal sellers, although commission houses also sold freely. There appeared to be less support from cash houses, the principal demand coming from shorts. The market closed weak. September opened ⅛ to ¼c higher at 73¼@73⅜c, sold off to 72⅛@72¼c, and closed at 72⅝c. Clearances of wheat and flour were 335,900 bushels. Primary receipts were 1,030,000 compared with 649,000 bushels one year ago. Minneapolis, Duluth and Chicago reported receipts of 500 cars, against 703 last week and 460 last year.

Corn was steady at the start, because of a fair demand by cash houses, which were influenced by small local receipts. Sentiment, however, soon became bearish, and during the remainder of the day the market held rather weak. Weather favorable to the growing crop was one of the chief weakening factors, although the break in wheat had considerable effect. Likelihood that the government report would show a yield over the average also aided in forcing down the price. A fitful rally occurred late in the day on covering by shorts, but the market closed easy. September opened unchanged to ⅛c higher at 49½ to49⅝c, sold off to 48⅝c, and closed at 49¼c. Local receipts were 150 cars, with 72 contract grade.

Oats displayed considerable weakness after a firm start. Weather conditions were more favorable and belief became prevalent that the crop had not suffered as much damage as was previously feared. The weakness of wheat and corn was also a depressing influence. September opened ⅛c higher at 31⅝c, sold off to 30⅞c, and closed at 31⅛c. Local receipts 208 cars.

An increased hog movement caused fairly active selling of lard and ribs by pit traders, and resulted in a weak market for provisions. Pork did not sell off with the balance of the list, fear of possible manipulation aparently holding this product steady. There was a decline of 10c in live hogs. At the close, September pork was unchanged at $16.95. Lard was off 7½c at $8.70. Ribs were 10@12½c lower at $7.97½.

Estimated receipts for tomorrow: Wheat 420 cars; corn, 74 cars; oats, 226 cars; hogs, 16,000 head.

New York, August 9.—COTTON—There was a bearish tendency in the cotton future market today. The crop advices were divided, but the trade held a preference for the favorable reports, and consequently a bearish interpretation was generally held as to the probable extent of the yield. Two leading ring brokers jumped on the market with large selling orders, and they caught the bull party napping, with the result that prices in some instances broke severely. The declining tendency of the list, however, was considered natural among many professionals who continued to predict lower cotton. It is now figured in some quarters that the amount of cotton available during the forthcoming year will be at least 13,500,000 bales, and with consumers fairly well supplied here and in Europe the ultimate course of the market must be downward. Such theorizing, while interesting, is not believed by certain professional bulls, who aver that higher prices will prevail between this time and the first of the year as the result of natural support which will follow the fact that certain powerful interests are carrying big lines of cotton in the December option.

A good broad trading market is expected to prevail from this time forward, and the fluctuations are expected to continue interesting.

A PROCLAMATION.

By His Excellency, Joseph M. Terrell, Governor of Georgia. Executive Department, State of Georgia, Atlanta, July 31, 1906.

Whereas, The General Assembly, at its session in 1906, proposed an amendment to the Constitution of this State, as set forth in an Act approved July 31, 1906, to wit:

"An Act to amend paragraph 1 of section 1 of article 6 of the Constitution of this State, and paragraph 5 of section 2 of said article, and to add to said section 2 a paragraph to be known as paragraph 9, so as to provide for the establishment of a Court of Appeals and to define its powers and jurisdiction, to define the jurisdiction of the Supreme Court, and for other purposes.

"Section 1. Be it enacted by the General Assembly, That paragraph 1, of section 1, of article 6 of the Constitution of this State be amended so that it shall read as follows:

"'The judicial powers of this State shall be vested in a Supreme Court, a Court of Appeals, superior courts, courts of ordinary, justices of the peace, commissioned notaries public, and such other courts as have been or may be established by law.'

"Sec. 2. Be it further enacted, That paragraph 5, of section 2, of article 6, of the Constitution of this State be amended so that it shall read as follows:

"'The Supreme Court shall have no original jurisdiction, but shall be a court alone for the trial and correction of errors in law and equity from the superior courts in all civil cases, whether legal or equitable, originating therein, or carried thereto from the court of ordinary, and in all cases of convictions of a capital felony, and for the determination of questions certified to it by the Court of Appeals; and shall sit at the seat of government at such times in each year as are or may be prescribed by law, for the trial and determination of writs of error from the superior courts and of questions certified to it as aforesaid. The provisions of this paragraph shall become effective on the first day of January, Anno Domini 1907, but shall not affect cases which, on that date, are pending in the Supreme Court, except that cases then pending therein of the kind of which the Court of Appeals has jurisdiction may be transferred by the Supreme Court to the Court of Appeals. Any case thereafter carried to the Supreme Court which is of the class of which the Court of Appeals has jurisdiction may be transferred to the Court of Appeals, under such rules as the Supreme Court may prescribe until otherwise provided by law; and the Court of Appeals shall try the cases so transferred.'

"Sec. 3. Be it further enacted, That the Constitution of this State be amended by adding to section 2, of article 6, a paragraph to be known as paragraph 9, which shall read as follows:

"'The Court of Appeals shall, until otherwise provided by law, consist of three judges, of whom two shall constitute a quorum. It shall sit at the seat of government and at such other places as may be prescribed by law.'

"The Governor shall, immediately on the ratification of this amendment, call an election, to be held on Tuesday after the first Monday in November, Anno Domini 1906, at which the judges of the Court of Appeals shall be elected in the manner in which Justices of the Supreme Court are elected. The returns of said election shall be made to the Secretary of State, and the Secretary of State shall canvass the returns and declare the three persons receiving the greatest number of votes to be elected. The terms of office of the judges then elected shall begin on the first day of January, Anno Domini 1907, and shall continue respectively two, four and six years, and until their successors are qualified. The persons so elected shall, among themselves, determine by lot which of the terms each shall have, and they shall be commissioned by the Governor. All terms of the judges of the Court of Appeals, after the expiration of the terms aforesaid (except unexpired terms) shall continue six years, and until their successors are qualified.

"'The times and manner of all other elections, and the mode of filling a vacancy which causes an unexpired term, shall be the same as are or may be provided for by the laws relating to the election and appointment of Justices of the Supreme Court. The Court of Appeals shall have jurisdiction for the trial and correction of errors in law and equity from the superior courts in all cases in which such jurisdiction is not conferred by this Constitution on the Supreme Court, and from the city courts of Atlanta and Savannah, and such other like courts as have been or may be hereafter established in other cities, and in such cases as may be hereafter prescribed by law, except that where, in a case pending in the Court of Appeals, a question is raised as to the construction of a provision of the Constitution of this State or of the United States, or as to the constitutionality of an Act of the General Assembly of this State, and a decision of the question is necessary to the determination of the case, the Court of Appeals shall so certify to the Supreme Court, and thereupon a transcript of the record shall be transmitted to the Supreme Court, which, after having afforded to the parties an opportunity to be heard thereon, shall instruct the Court of Appeals on the question so certified, and the Court of Appeals shall be bound by the instruction so given. But, if by reason of an equal division of opinion among the Justices of the Supreme Court, no such instruction is given, the Court of Appeals may decide the question. The Court of Appeals may at any time certify to the Supreme Court any other questions of law concerning which it desires the instruction of the Supreme Court for proper decision; and thereupon the Supreme Court shall give its instruction on the question certified to it, which shall be binding on the Court of Appeals in such case. The manner of certifying questions to the Supreme Court by the Court of Appeals, and the subsequent proceedings in regard to the same in the Supreme Court, shall be as the Supreme Court shall by its rules prescribe, until otherwise provided by law. No affirmance of the judgment of the court below, in cases pending in the Court of Appeals, shall result from delay in disposing of questions certified by the Court of Appeals to the Supreme Court. All writs of error in the Court of Appeals, when received by its clerk during a term of the court, and before the docket of the term is by order of the court closed, shall be entered thereon, and when received at any other time shall be entered on the docket of the next term, and they shall stand for hearing at the term for which they are so entered, under such rules as the court may prescribe, until otherwise provided by law. The Court of Appeals shall appoint a clerk and a sheriff of the court. The reporter of the Supreme Court shall be reporter of the Court of Appeals, until otherwise provided by law. The first term of the Court of Appeals shall be held on the first Monday in January, Anno Domini 1907. The laws relating to the Supreme Court, as to qualifications and salaries of the judges, the designation of other judges to preside when members of the court are disqualified, the powers, duties, salaries, fees and term of officers, the mode of carrying cases to the court, the powers, practice, procedure, times of sitting and costs of the court, the publication of reports of cases decided therein, and in all other respects, except as otherwise provided in this Constitution, and until otherwise provided by law, shall apply to the Court of Appeals, so far as they can be made to apply. The decisions of the Supreme Court shall bind the Court of Appeals as precedent.'

"Sec. 4. Be it further enacted, That whenever the above proposed amendment to the Constitution shall be agreed to by two-thirds of the members elected to each of the two houses of the General Assembly, and the same has been entered on their journals, with the yeas and nays taken thereon, the Governor shall, and he is, hereby authorized and instructed to cause said amendment to be published in at least two newspapers in each congressional district in this State for the period of two months next preceding the time of holding the next general election.

"Sec. 5. Be it further enacted, That the above proposed amendment shall be submitted for ratification or rejection to the electors of this state at the next general election to be held after publication, as provided in the fourth section of this Act, in the several election districts of this State, at which election every person shall be qualified to vote who is entitled to vote for members of the General Assembly. All persons voting at said election in favor of adopting the proposed amendment to the Constitution shall have written or printed on their ballots the words, 'For Court of Appeals amendment,' and all persons opposed to the adoption of said amendment shall have written or printed on their ballots the words, 'Against Court of Appeals amendment.'

"Sec. 6. Be it further enacted, That the Governor be, and he is, hereby authorized and directed to provide for the submission of the amendment proposed in the first, second and third sections of this Act to a vote of the people as required by the Constitution of this State in paragraph 1, of section 1, of article 13, and by this Act, and if ratified, the Governor shall when he ascertains such ratification from the Secretary of State, to whom the returns shall be referred in the manner as in cases of elections for members of the General Assembly, to count and ascertain the results, issue his proclamation for one insertion in one of the daily papers of this State, announcing such results and declaring the amendment ratified."

Now, therefore, I, Joseph M. Terrell, Governor of said State, do issue this my proclamation hereby declaring that the foregoing proposed amendment to the Constitution is submitted for ratification or rejection to the voters of the State, qualified to vote for members of the General Assembly, at the general election to be held on Wednesday, October 3, 1906.

A PROCLAMATION.

By His Excellency, Joseph M. Terrell, Governor of Georgia. Executive Department, State of Georgia, Atlanta, July 31.

Whereas, The General Assembly, at its session in 1906, proposed an amendment to the Constitution of this State, as set forth in an Act approved July 31, 1906, to wit:

A bill to be entitled an Act to propose to the qualified electors of this State, an amendment to paragraph 2 of article 1 of section 11 of the Constitution of this State as amended by the ratification by the qualified voters of this State of the Act approved July 19, 1904, and for other purposes.

STOCKS TENDED TO STEADY FALL

Extreme Losses Partly Offset by Late Rally.

Expected Union Pacific Dividend Did Not Materialize—Large Buying of Pennsylvania Lone Feature of Strength in Market.

New York, August 9.—The large buying of Pennsylvania today was again the only feature of strength in the stock market. Its influence in restraining the falling tendencies of prices elsewhere was less effective than yesterday. There was not much in the way of news developments to account for the change in the market's tone. Apparently speculative opinion had pitched upon today's meeting of the Union Pacific executive committee as to the one to announce the long-expected developments on which that stock has risen for several weeks with sympathetic effect on the whole transcontinental group. The adjournment of the committee today with the announcement that only routine matters had been considered seemed to shake the belief in the intended increase in the dividend and the inauguration of dividends on Souther Pacific with confidence shaken in the truth of rumors which had played so important a part in the speculative advance in prices, the suspicious attitude toward the movement, which has been held in many quarters from the outset, was strengthened.

The money market also gave decisive evidence of the tightening effect of the beginning of the demand from the west for the purposes of the harvest. The rate for call loans went as high as 5 per cent. During the day the rates for time loans also were appreciably firmer. The late development of strength in Southern Pacific offset to some extent the effect of the weakness in Union Pacific. A rally in prices repaired a part of the extreme losses. The close was extremely firm.

Bonds wtre firm. Total sales, par value, $2,155,000.

Edmund & Charles Randolph.

Atlanta, Ga., August 9.—COTTON.—In the early trading the market was supported by Schill, Shearson and Pearsall. But beautiful weather was reported from a over the belt and this coupled with the multitude of spot offerings from the south, brought about a decline which caught many stop orders on the scale down, and there seemed to be no support except the covering of a few scattered shorts from time to time, at the same time there was more inclination to feel for the bottom of the market on the theory that at no previous time this season has the speculative long interest been so reduced as at the present time. The decline extended to 9.62 for October, 9.73 for December, and 9.84 for January, or about 23 to 25 points net lower. It was estimated around the room that Mitchell sold at least 100,000 bales mostly of December and many attributed this selling to the recent bull leader, some believing that this operator was going short while others thought the selling represented the tail-end of the long line of liquidation which was started after the bureau report a week ago last Friday. At the decline trading became less active and the market rallied a few points, but the undertone showed little improvement. The room element was short anad some operators looked for a further rally on covering. New York spots quiet, 10 points lower at 10.60; New Orleans spots steady, and unchanged at 10.56, with sales of 625 bales on the spot and 150 to arrive. Liverpool is due to snow a decline of 5 to 7 points in the morning to meet New York's final figures.
